TRADE TOKEN TOPICS

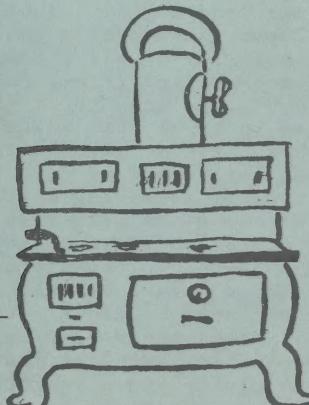

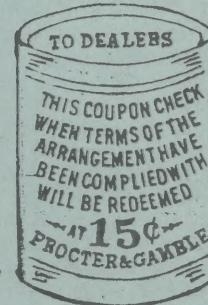

MONTHLY PUBLICATION FOR TRADE TOKEN COLLECTORS

MERCHANT TOKEN

COLLECTORS ASSOCIATION

METCA, 752 N. 74th, Seattle, WA 98103

MAVERICKS - Don't neglect looking back at previous listings of our maverick columns as there are still lots of tokens needing an identity. How about some "Hometown Maverick Listings" from the membership? This is one way of getting true attributions to some of the many "homeless" pieces in our collections. Thanks to Lee Nott, our maverick editor, for all his efforts in this respect. Many thanks to those of you who take the time to write him with attributions. Keep up the good work. Hats off to Robert Glasgow for his listing of York, PA mavericks and to Bill Massey for his Quincy, Ill listing.

ATTENTION ADVANCED COLLECTORS: There are a great many collectors who have recently joined METCA. They are new to the hobby and haven't been beating the brush enough to build up any trading stock. As new collectors they are anxious to purchase tokens. You can't expect them to have any trading stock, so why not give them a boost and give them the opportunity to purchase some of your duplicates? I have several members who enjoy METCA, but have great difficulty in finding tokens from their area. Some of the states where we could use some more activity, i.e., mail bid sales; fixed-price lists; trade lists; etc. are: PA, CT, MA, NJ, MI, WY, FL, GA, AL, VA, UT and more. You will be pleasantly surprised at the results you will obtain by taking out an ad in Trade Token Topics. I am not pushing for more ads; I am pushing for a better mix from the membership. I have no control over this. It is up to the membership to take out ads. These ads reach approximately six hundred collectors, and at a nominal cost. You can show all your cards for as little as \$10-15. If you wrote only 80 letters you would be out the same amount of money.

I run several ads a year with a good mix from several states. Now, I list trades have preference over cash offers, however, I will consider them. And I wind up with very few trades, however, I do sell the great majority of them. I make a lot of collectors happy as I fully realize they can't always come up with a trade. I do hope that in the future when they do turn up something from my area that they give me an opportunity to purchase the item. I do not expect to get the token, just get the opportunity to make an offer for the piece. We need to give the new collectors and those several states away with very little chance of having traders from your area an opportunity to purchase a token once in a while. Another point that is often brought to my attention is - exercise a little patience with the new collector as they often want a particular token from your list but haven't really a good idea what to bid on it. If they do make a ridiculous offer; why not write on their letter what the token realized if you sold it, or state that you traded it. I am guilty more often than I care to admit in that I don't give a price realized - many times when I am forwarding a token the party won I fail to give the pr on others he or she bidden on. If I had given them a pr then they certainly could adjust their bidding when the token appears at a later date on someone else's list. Another point - SASE means a self addressed stamped envelope. When people request one for their listing, kindly remit an SASE. I am guilty of all these discourtesies, probably more than most due to the number of inquiries, requests, etc. I get, however, I will try to clean up my act. One more point and I'll get off my soap box. Some of you out there seem to think that METCA is highly financed association with a paid staff, etc. Let me clarify this right now. METCA is an association all right, but the number of paid staff members numbers none. My wife and I do it all - typing, answering mail, record keeping and more. We get no money for all the hours we put into this newsletter. It is pure and plain a labor of love. I am a collector of merchant tokens (from only five counties in the state of Washington) and took it upon myself to take over as editor of Trade Token Topics after a year hiatus. I saw a need to keep the merchant token interest alive (through TTT as a vehicle) not to make any money. There is no money to make. There could be I suppose if I raised dues and everything else to a level of profit, but I am content to continue as editor of METCA as long as I feel I am giving you a vehicle to enrich your collecting interests.

If, and when, it becomes a hassle I will gladly relinquish my duties to anyone I feel will carry out my ideals. I get all my inspiration from the nice comments you note when you take out an ad or send in a classified ad. Your appreciation of my work makes this labor of love bearable. When I get a negative letter I take it hard because I pay my way and do the lion's share of the work for no reward. I have delegated the responsibility of other columns to Lee Nott, Joe Schmidt, Bill Clapper, Al Zaika, and others over the years, and they have responded with zest and energy. I have nothing to reward them for their time and effort except my appreciation. They get their energy from your warm comments. It would be very easy for them to be just "collectors". But they collect and they contribute (as a labor of love). I am sure my wife would appreciate METCA more if someone else handled all the dirty work. She does more work than she gets credit for. And if the truth were known, I don't think she gives a golly darn about a token. I am a member just like you. I have no powers, no motives of profit, no special interests. I am just a collector who took some initiative to do something no one else would do - revive a monthly newsletter that serves the members of our association.

1981 dues to California Assoc. of Token Collectors (CATC) is \$2.00. Send to secretary: Elaine Willahan at 516 W. 99th St. in Los Angeles, CA 90044. Steve Alpert is president of CATC.

When in Nebraska drop by the Boys Town PhilaMatic Center Museum and tour their coin, stamp, currency, and token exhibits. Metca member George Husek is a member of the PhilaMatic Center Museum staff.

The CWTS-Civil War Token Society begins its 14th year. Dues are \$5.00/year. Service award winner for 1979 was Benj Fauver. Send dues to Cindy Grellman, 308 Janice St., Prattville, AL 36067.

Don't forget the National Collectibles Exposition is in Chicago, IL March 28 & 29th, 1981 at O'Hare/Kennedy Ramada Inn. Dealers inquires: call collect weekdays 312-726-6375 ask for Joel Reznick. Call evenings, weekends: 517-423-4053. Write: National Collectibles Exposition P.O. Box 1, Tecumseh, MI 49286.

S.L. Steinberg, Box 512, Malden, MA 02148 also has a 75 item counterstamped coin & token bid list. Telephone 617-321-7482. He has list #7 available for a large SASE (self addressed stamped envelope). There are 150 items of exonumia and numismatic interest. All items are bid items unless specifically priced. Get on his mailing list.

The Jan 3, 1981 THE QUINCY HERALD-WHIG newspaper did a nice feature on Bill Massey, Quincy Illinois token specialist. Bill will exchange his new personal with anyone who sends theirs. Bills' 11 year old son collects the personals in the family.

Received the nice 1980 pair of AVA personals from Ed Dence, collector of New Jersey & Philadelphia charge coins & dog tags.

The Northwest Token and Medal Society meets at the Norway Center (Seattle) on the third Thursday of each month (except July & August), at 7:00 PM. Seattle Coin Club meets immediately after at 8:00 PM. Glen Rome, Montana token and spinner collector, is the current President of NWTHS. Dues are \$5.00/annum. Some Washington state scrip catalogs are still available at \$8.95 ppd.

Do you collect transportation tokens? Join AVA. The cost of joining AVA is \$7.50 with \$1.00 for initiation-\$8.50. Send to R.K. Frisbee, AVA treasurer, 211 King St., Denver, CO 80219.

Lloyd Wagaman has completed the Indiana Trade Token catalog, however, it is in hang fire position waiting on TAMS.

I need tokens that Bill Clapper, Ray Mortimeyer, T.H. Robinson, Dave Schenkman and Steve Tureen can use. I will buy collections and any Rare single tokens you have to sell. Will purchase G/F Missouri advertising mirrors I don't have.

I have many rare tokens, political items, Adolph Hitler photocards, wooden flats, small advertising items, A.Y.P.E. material, Rare Stamps and pinback buttons to trade for Missouri tokens and all other tokens I need. Give me a try. I will try to be at the Chicago show in March. I also need old mavericks.

I would like to purchase any old Missouri town & state directories you have for sale.

Would anybody have any old etched or embossed beer glasses for sale or trade? I sure need them.

THE LAST GREAT TOKEN DIE SALE

This is the last sale I intend to have of choice token dies produced by Jos. Mayer & Bros. of Seattle, one of the Northwest's earliest makers of trade checks (1895-1938). See the October TTT for more information in my first sale. The average winning bid on dies in that sale, excluding the Alaska dies, was \$24.17. This sale features equally choice items, but also features a number of old reverses which should be a little more affordable. This may be your last chance to pick up an example of early Northwest and Alaska diework. Even a reverse can provide lots of enjoyment, searching for tokens struck by your die.

The dies are all in good condition for display items, though some have rim nicks or slight discoloration. Major problems are noted. Read the TERMS of the sale carefully. Suggested minimum bids: \$5 for reverses, \$10 for other dies. I hope every collector can get at least one example of these fascinating dies.

1. (Willapa, WA) Willapa Harbor Bus Line. 21 mm. The 5¢ size of an unknown and unlisted transportation token, struck in September 1916 for the owner of a "stage line" in this tiny Washington town. This one also comes with the original stock card showing when struck, cost, reverse, etc. Very special set; see the last sale for more information. MB \$60.
2. Seattle Municipal Railway. School Ticket. Two dies, the obverse and reverse of (Atwood) Wash. 780F. Few rim nicks.
3. (Douglas, AK) The Hunter 12 1/2 cents. The obverse of Douglas 17B (confirmed by Ron Benice), an old saloon. (While you've got your Alaska book open, note Douglas 20--that very fancy 12 1/2¢ is featured below.) An R7 token. MB \$50.
4. Kodiak, AK - B & B. 24 mm. The obverse of Kodiak 1A, from an old saloon run by P.D. Blodgett and John Blinn. MB \$50.
5. Petersburg, AK - Pacific Coast & Norway Packing Co.. 27.5 mm. The obverse of Petersburg 6C, which is a 50¢ token. MB \$50.
6. (St. Michael, AK) Good for 25¢ in trade R.L. Negus. 23.5 mm. The reverse for one of the two listed Eskimo tokens from St. Michael, which Benice dates ca. 1932 but which appear more like ca. 1910. MB \$50.
7. Skagway, AK - [Elks Club] 431. 28 mm. Skagway 2B, the large size B.P.O.E. token from this town. Damage to shank (not face).
8. (Wrangell, AK) Tom's Place Good for 10¢ in Trade. An unlisted denomination of Wrangell 10. 27 mm. MB \$50.

WASHINGTON

9. Good for 12 1/¢ in trade. 25 mm. This, to my mind, is one of the choicest items here, although it's just a reverse and not exclusively an Alaska reverse, I am sure. It is pictured on two saloon tokens in the Benice book, Douglas 20 and Valdez 5, and by his dating is pre-1900. The numbers are about the fanciest I have seen. Similar 10¢ and 50¢ reverses are offered below, but I don't see them pictured in Benice. MB \$30.
10. Bellingham, WA - A. Alexandre, Cor. C. & Holly St.. 20 mm face with a large shank (47.5 mm at the base). Cigars, pool, etc., listed in Polk's 1923-31 at 617 W. Holly.
11. Carlsburg, WA - Fairman & Yorke. 24 mm. A misspelling of Carlsborg, a small Clallam County town. I could find no Polk's listing for this business.
12. Centralia, WA - Centralia BAKERY. 24 mm. Date unknown.
13. Ellensburg, WA - The Mint. 24 mm. One of the very few east-of-the-mountains tokens struck by Mayer Bros.
14. Hamilton, WA - Finch Bros.. 24.5 mm. A small Skagit County town. In 1917-18, there were several Finches in Bow, Washington, but I could find no listing for them in Hamilton.

15. (Hobart, WA) Wood and Iverson Store Incorporated. 30 mm and 20 mm. Beautiful dies from a tiny King County town. Positively attributed (listed in Polk's in 1914). The last sale featured the 30 mm piece, but instead I sent the high bidder a larger 36 mm die (with his consent). Two dies.
16. Hoodspur, WA - Ahl's Pool Hall. 21 mm. A smaller version of the die listed last time from this tiny Mason County town.
17. Lake Stevens (WA) - R. W. Lambright. 20 mm. A very rare token town in Snohomish County; only two with tokens from here in the last Washington census, including mavericks.
18. National, WA - National Store. 27 mm. A large attractive old die from a scarce Pierce County town. Date unknown.
19. Raymond, WA - C.C. Bowers. 24.5 mm. An attractive old saloon token die, with the same saw-toothed border that was on a couple of dies in the last sale. Saloon listed 1907-08.
20. (Seattle, WA) - Eagles Club 1. 20 mm. Probably an early 1930's die from the Mother Aerie.
21. Silvana, WA - L.P. Clausen. 21 mm. Clausen had a hotel and blacksmith shop in this rare Snohomish County town in 1909, and the hotel is still listed in 1914.
22. Snoqualmie, WA - Jeff's Pool Room. 21 mm. A banged up piece with rim dings and a gouge at the end of "Jeff." Probably from the billiard hall and confectionary of Jefferson Jones, listed in Polk's in 1925 (town population 450 then).

23. Three Lakes, WA - Three Lakes LUMBER CO. 27.5 mm. An R10 lumber token die from Snohomish County, Trantow WA 1241A-50 (used to strike a 50¢ token).
24. As above, but 23.5 mm. Another R10 (rarest) lumber token die, Trantow WA 1241A-25, used to strike a 25¢ token.
25. Yakima, WA - Sam Chong. 20 mm. The last east-of-the-mountains Mayer Bros. die.
- 25a. Port Townsend (WA) - Delmonico Hotel, Good for 5¢ In Trade. 21 mm. The same die offered last time. The high bidder (\$25.55) would not agree to the prohibition on restrikes.
26. (ID MILITARY) Co.F. Exchange, 5¢, 2nd. Idaho. 23.5 mm. I don't know much about military tokens, but as far as I can tell this is an unlisted old Idaho military piece.
27. Bandon, OR - Arc Light, 6 1/4¢, W.C. Sellmer. 20.5 mm. This may have been the billiard parlor Sellmer ran here, listed in 1911-12. Mayer Bros. made few Oregon tokens.
28. (Portland, OR) Multnomah Novelty Co.. 20 mm, rim nick. Looks like an amusement (machine) token die.
29. Eagle Lake, TX?? - Eagle Lake Transfer Company. 28 mm. An unlisted size die; a 25 mm token (10¢) is listed in the 1979 Supplement to Fowler & Strough's Trade Tokens of Texas. Why a Texas token was made in Seattle I'll never know.
30. Vancouver, B.C. - Issued and redeemable anytime at 718 Granville St, Vancouver B.C. 23 mm. An odd die; the letters are very shallow and make a poor impression. Unfortunately I don't have the new B.C. token book so can't identify this one.
- 30a. Victoria, B.C. - St. Francis Hotel. 21 mm. This is the same die offered in the last sale, but the high bidder (\$33.33) would not honor the terms of the sale concerning no restrikes without permission. The die that attracted the most bids.

31. N.W.C.Co. 20 mm. A hotly contested token, attributed by some to Alaska (Northwestern Commercial Company 1AI in Benice), by others to Bellingham or Seattle, WA. I make no judgment, but invite the Alaska supporters to bid.
32. As above, but variety numbered 1AII in Benice.
33. Mountain Owl, J.L. 23 mm. An attractive owl face.
34. Koska. 24 mm. Looks old, but not identified.
35. G. Nielson, Tobacconist, Esquimalt Rd.. 23 mm. Victoria, B.C.? R L R L. 20.5 mm. This one comes with the stock card showing that 1000 were made for Schoen-Bernstein Sales Co. in 1931. The same day 1000 Central Pool, Monroe, tokens were made for Schoen-Bernstein. These cost \$15 for 1000. Face discolored.
37. Good for a [a horse "bit"]!. 24 mm. Similar to dies used to strike some pre-1910 Seattle saloon tokens.
38. One quart. 24 mm. Old, undoubtedly pre-1910, and I assume a DAIRY token die. Saw-toothed border (see #19, above).
39. Good for 10¢ with bottle. 24 mm. Another old DAIRY piece.
40. Good for one loaf. 23.5 mm. A BAKERY reverse.

41. Good for one tank. 24 mm. Gas station?
 42. Good for 5¢ at the bar. 20 mm. Old slant-5 saloon reverse.
 43. Good for 5¢ cigar. 20.5 mm.
 44. Arcade 5 cents. 24 mm. Old, the same saw-toothed border as #19 and #38, above.
 45. 10¢, 25¢, 50¢. 23.5 mm. Matched set of three reverse dies, all with a saw-toothed border and all clearly old.
 46. 10¢, 50¢, \$1.25. 24.5 mm. Matched set of three reverse dies, the same style and type as #9 above (12 1/2¢). These must be all pre-1900, among the earliest of Washington State dies.
 47. Good for 5¢ in trade. 24 mm.
 48. Good for 12 1/2¢ in trade. 22.5 mm. Large, early, ornate. A couple of rim nicks. On a small (14 mm) shaft.
 49. Good for 12 1/2¢ in trade. 28 mm. Clearly the reverse for Valdez 17. I'm sure it was used on non-Alaska tokens too.
 50. Good for 12 1/2¢. 21 mm.
 51. Good for 12 1/2¢ in trade. 20.5 mm.
 52. Good for 12 1/2¢ in trade. 32 mm circular face set on a large 35 mm octagonal die.
 53. Good for 15¢ in trade. 27 mm. Rare denomination.
 54. Good for 20¢ in trade. 24 mm.
 55. Good for 20¢ in trade. 28 mm.
 56. Good for 25¢ in trade. 27 mm.
 57. 40¢. 24 mm. Probably the reverse for Valdez 12B, the Nizina saloon (1903-06). Exactly the same style as the 20¢ pictured in Benice. The token is an R8 (rarest). Rare denomination.
 58. \$1.00. 24 mm.
 59. Good for \$2.00 in trade. 36 mm. Large, heavy and impressive.
 60. Good for \$5.00 in trade. 20 mm.

TERMS

Postage and insurance added. All successful bidders must agree in writing upon receipt of invoice that they will not restrike or permit restrikes of these dies without written permission (e.g., for clearly identified commemorative issues). Buyers will be registered with all appropriate organizations, and purchasers for resale will be required to supply the name/address of the buyer. Right reserved to reject any bid (but I doubt if I will have to). No bid reductions in this sale, so bid what you think a die is worth. "Budget" buyers: state the upper limit you want to spend, and list your bids in the order you want them executed.

Note: since this ad will be reduced when published in TTT, the die impressions will be about 1/3 smaller than actual size.

GILT BRASS 32.5MM ROUND PLAIN EDGE

OBV. Van Pelt / (Indian in headdress facing right) / Big Injun

REV. George H. Van Pelt / I die / but still / I last / Chicago

Mr. Van Pelt is listed in the 1883 Chicago business directory with "lasts & dies" after his credit rating. Here lies the answer to the reverse inscription, or so I think! I honestly didn't know what a LAST was but the dictionary noted "a form shaped like a foot, used in repairing boots or shoes". So this unusual token is explained. At first one would probably believe the inscription meant to indicate to the holder of the token that Mr. Van Pelt would live on through his token, and this, of course, has also come to pass!

The obverse Indian pictorial and the 3 stars at either side was a stock die used by the die-sinking firm of S.D. Childs & Co. of Chicago. It is interesting to note that Childs featured at least 5 different Indian portraits for utilization by customers, and obverse and reverse inscriptions could be used - a change from other die-sinkers who offered only one side for advertising.

Here we have continuing proof that nice tokens can still be found at auctions or mail bid sales, especially those that ask seemingly imponderable questions. It was once said "there is nothing like a mystery" and finding the answer to the inscription on this piece was an enjoyable and worthwhile pursuit!

BIFACIAL BRASS 21.5MM ROUND PLAIN EDGE

Good for one fortune reading / free / with 5¢ / pkg. of / mints

Again, the once lowly and ignored amusement token is proven entertaining and unusual! Just for the fun of it, I wonder how this token was used? Oh, it could've been utilized for just what's indicated, a fortune reading with mints you bought from a machine. I wonder when these were used and would guess the 1920's, but then don't hold me to a guess. Tokens such as these must be actively sought by owners of the machines they were used with, so if you have a like example attend a show with antique slot and/or vending machines and you may get a fair price.

I've mentioned before the consummate work on amusement tokens by Stephan Alpert & Ken Smith. Some may question paying \$25 for this work, but rare amusement tokens have passed the \$100 mark and many nice pieces can still be found at one - twentieth the price in 25¢ dealer junkboxes. I've procrastinated on this work myself, but not for long! If you wish a copy write Steve Alpert at PO Box 66331, L.A., CA. 90066.

Williges, P.O. Box 445, Wheatland, CA 95692, (916) 633-2732 has a 20 page
exonomic list.

THE LAS VEGAS SUN, Monday, January 12, 1981 newspaper featured an article on
the famous doctor, Steven P. Shearing, who performed eye surgery - removal of
cataract and placing lenses inside eyes - on Metca member Shawnee Gordon.
Shawnee reports he had 5% vision in one of his eyes until the operation. Now
he has 20-20 vision and is encouraged to use his eyes as much as he likes.

Metca members, Bonnie & John Calhoun, have a reproduced copy of the SPOKANE
FALLS EVENING CHRONICLE, Spokane Falls, Washington Territory, Tuesday, Septem-
ber 21, 1886. They are selling for \$2.50 postpaid. It is a 4 page paper -
very interesting to read.

NY EIGHTEEN YEAR COLLECTION OF UNUSUAL DENOMINATIONS.

Doug Rice

Few collectors have put together a collection - series of "unusual" denom-
inations. I just thought it might be interesting to relate to the membership
a listing of the values I have put together over an eighteen year period. A
few of the listed are fairly modern and some are gambling tokens, however,
most of my collection are old trade tokens. I have the following tokens:

1/10¢, 1/4, 1/3, 1/2, 1, 1½, 1½, 2, 2½, 2 1/12, 3, 3 1/3, 3½, 4, 5, 6, 6½,
6¾, 7, 7½, 8, 8 1/3, 10, 11, 12, 12½, 13, 15, 16 2/3, 17, 18, 20, 25, 26, 29,
30, 35, 36, 40, 50, 55, 59, 60, 65, 70, 75, 80, 85, 87½, 90, \$1.00, 1.20,
1.25, 1.50, 2.00, 2.25, 2.30, 2.50, 3.00, 3.50, 4.00, 5.00, 6.00, 7.50,
10.00, 15.00, 20.00, 27.50, 30.00, 37.50, 50.00, 70.00, and \$100.00.

I am interested in adding denominations that don't appear in the above
article. Write me at 445 Black Creek Rd., Montesano, WA 98563. Thank you.

PREPARING A FULL PAGE AD.

In submitting a full page ad for Trade Token Topics, please lay out all you
can on a 8½X 11 paper. Many of you reduce your ad or send in ads that approx-
imate the size appearing in your issue. Use 8½X11 - all you can cram on that
size paper will appear as I reduce it when I send it to the printer.

FEBRUARY/MARCH WILL BE A DOUBLE ISSUE - FULL PAGE ADS ALREADY TYPED UP NEATLY
WILL BE ONLY \$8.50. TAKE ADVANTAGE OF THIS LOW COST FULL PAGE AD PRICE AND
SUBMIT YOUR TRADING/SELLING MATERIAL.

ANNOUNCEMENTS

DUES FOR THE GEORGIA STATE TOKEN-EXONUMIA ASSOCIATION - \$3.00. Mail to John F. DeLoach, 3059 Templewood Drive NE, Atlanta GA 30319.

Write JOHNSON & JENSEN, 8 Briar Ridge Road, Danbury CT 06810 if you are interested in the official 1981 Presidential Inaugural Medal or the newly published Collectors Guide of Presidential Inaugural Medals and Memorabilia. The book by H. Joseph Levine is \$8.95 postpaid. J & J catalogs and prs for their four specialized medal auctions is \$10.00/yr.

New - Just Published! Booklet of Puerto Rican Hacienda Tokens. Over 500 Haciendas, each with short history, over 600 tokens, new prices, 75 pages, soft cover, \$10.00. D. VAIA, RR2, BOX 590, SAN SEBASTIAN, PUERTO RICO 00755.

A Current rate postage stamp gets you the latest fixed price listing of exonumia from Williges. See his ad in the classified section.

Maverick Editor, Lee Nott, is contemplating a column on Ingle System Mavericks in the next issue. He may change the format so that he lists only the business name since most would have a standard obv./rev. die. That way he could include a long listing. Since this will be a special listing of only Ingle mavericks - only one item of identifying information is necessary.

The Feb 81 Fare Box makes note of the 1981 A.V.A. Convention at Salt Lake City, Utah on the 7th, 8th, and 9th of August.

Read in CATC that Steve Alpert, Larry Elman, Bill Massey and other southern California members will be attending the National Collectibles Exposition in Chicago in late March.

Are you on the mail list of Numismatics Services of Alaska, Inc. P.O. Box 2832, Fairbanks, AK 99707 for Alaska tokens and medals?

The Spring 1981 National Convention of NSCA will be May 8-9 at the Sheraton-Bluefield, West VA.

Dues for NSCA is \$5.00. Remit to Walt Caldwell, Box 29, Fayetville, West VA 25840.

Have you paid your 1981 METCA Dues? Remit \$8.50 to METCA, 752 North 74th, Seattle, WA 98103.

March, 1981

The following lots are buy or bid or trade. I have priced the first three lots at what I think is fair. If you think my price is high and you are interested, make an offer. I am interested in trading for pre-statehood Alaska tokens, A.Y.P.E. material or unc. coins prior to 1964. Please include \$3.00 per order for postage and insurance.

Heraldic Art Medals. This set of medals was started in 1959 with the Alaska Statehood being #1. These medals were supposed to take over where the regular commemoratives left off. They were the exact size of the commemorative half dollar. The Alaska, Hawaiian and St. Lawrence were struck this way. The government said they couldn't be the same size. Commencing with the Hawaiian they were struck thicker. All thereafter were of the thick variety. This created two varieties of the Hawaiian and St. Lawrence Seaway, thick and thin.

The set I have runs from #2, the Hawaiian, through Dag Hammerskjold, 15 medals including the two varieties of St. Lawrence Seaway. This would be the Hawaiian, St. Lawrence Seaway (2 varieties), Pony Express, Boy Scouts, Pioneer Invention, Kansas Statehood, Civil War Centennial, Tippecanoe 1817, Louisiana Statehood, USS Constitution 1812, Girl Scouts, West Virginia Statehood, Project Mercury, Telstar 1962, and the Dag Hammerskjold. These are .925 fine silver, unc. in original envelope of issue. \$225.00 I also have a few odd pieces of some of these.

I have a few sets of the large Medallic Art Medals of Alaska Centennial. These are in the original boxes of issue with descriptive brochures. The silver medal contains a little over 5 oz. of silver. The set, bronze & silver \$140.00 Single Bronze \$10.00.

A lot of 10 different \$1.00 or dollar-size Alaskan tokens good for a starter collection or duplicates for trading. Most will be unc, a few circulated. \$10.00 for the set. Most of these retail for \$2 to \$3.

1 lot of 100+ pieces of junk. This is an accumulation of 20 years. I have tried not to acquire this type of material but you know how it goes. It includes tax tokens, vending tokens and other odds and ends. I will throw in a Teller Commercial set with this lot. No return on this one. Make an offer.

MY LIST OF SCARCE TOKENS FOR SERIOUS COLLECTORS.

Will trade for GOOD British Columbia or Yukon tokens I need.
*** will consider cash bids. No ridiculous bids will be noticed.***

**** Will hold bids for two weeks after I get my M.E.T.C.A. ****

I have lots of other interesting numismatic item to sell as I'm getting crowded out. I will trade for any B.C. or Yukon that I need or for any good Canadian tokens or medals. I have many boxes of unattributed mavericks that I would like to see if anyone can identify. I welcome correspondence at any time and will reply in due course. Hope there is something here for everyone.

TOKENS AND MEDALS FOR SALE

Dear Token Collector:

Recently Bowers & Ruddy Galleries joined the California Association of Token Collectors. As part of that membership we were introduced to several of you. I thought it might be appropriate to send you a letter and let you know that we have a great number of tokens and medals being offered in our upcoming Garrett Collection Auction. This auction will be held on March 25th and 26th. Also, the Roy Harte Sale will be conducted on March 27th. Between these two Sales we have probably the greatest offering of medals and tokens of this century.

ODD AND UNUSUAL TOKENS

ALUMINUM 31MM 4 POINTS,4 SCALLOPS

OBV Yun Fong Lo Co./78/W. Madison St.

REV Good for/10¢/in trade

An interesting fact pointed out to me by a Chinese missionary may be of help to METCA members that obtain Oriental tokens. Generally, Chinese names end in a consonant while Japanese names end in vowels! This is not a strict rule but was helpful in identifying this piece as a Japanese token from Chicago. Although Chicago's "Chinatown" section - though once large-produced few tokens such as this is an anomaly when one considers the prolific amount of Oriental pieces from San Francisco!

As a matter of fact, only 2 Oriental tokens from Chicago are known to me. I believe that this is the first Oriental token featured in this column, and should any reader own a token with Oriental characters with an unusual story I'd like to feature it! Please contact me regarding the mysterious lack of Chicago Oriental tokens should you have any explanations.

BRASS 38MM ROUND PLAIN EDGE

OBV Griffin's Iowa Optical Co./good for/\$2.00/on any pair of glasses/203 Toy Bank bldg./Sioux City, Iowa.

REV Dr. Stoddard,Dentist./good for/\$2.00/on any \$10 account/or over/203 Toy Bank bldg./Sioux City, Iowa.

John Mutch from Boise, Idaho who is hard at work on his Idaho trade token book,took time to send in this interesting piece. Here we have a combination optical & dental "good for" token. Dental items alone are in high demand and this item should be considered quite scarce. The diework seems to be somewhat modern (perhaps post WWII) and \$2 off a pair of glasses would be welcome nowadays! John & me would both like to hear from our many Iowa METCA members concerning the probable rarity and year(s) of issue of this dual merchant token. As an aside, wouldn't it be interesting to know how the "Toy Bank Bldg." got it's name? This token is also unlisted in Lewis Ferguson's excellent work, "Trade Tokens of Iowa" a must for anyones library!

UPDATE CHECK LIST OF ALABAMA LOCATIONS THAT USED TOKENS

In METCA in Feb./Mar. 1980 V-9 #2 & 3 Page 7-8-9, we listed known locations where tokens had been used. Even though two main collectors still have not be added to this list. It has grown from 254 to the present 324 with the following additional 70 location. Using the same legends as the first listing. The listing will be divided into three different parts. First, will be four different letters describing the type of listing from that location, with the best known piece listed as follows: O=That tokens have been reported from that location but not verified by sight, rubbings or catalogue listing. X= non-modern token with both city & state listed on it. T=Town name is part of wording on token. R=Maverick, wood, modern, chip, plastic, medal, transportation, parking, mason, encased, elongated, ect.

Second part of listing will be the identification of the location from which the token has originated from.

Third part of listing is to the right of location, which lists the 67 present counties by abbreviations. The first three letters will be used from each county except for the following counties.

PLEASE KEEP IN MIND THAT IF A LOCATION IS NOT LISTED IT DOES NOT MEAN IT IS A RARE LOCATION AS THIS LIST IS ONLY TWO YEARS OLD. ALSO TO PIN POINT SOME LOCATION LISTED & OTHER LOCATION RESEARCH I NEED THE HELP OF THE FELLOW COLLECTORS IN TRACING DOWN SOME REF. MATTER SUCH AS OLD BANK GUIDES, POLK DIRECTORY & GAZETTEERS, OLD DUNN & BRADSTREET LISTINGS. HAVE D/B 1870, 76, 1909, 14, 18, 39 & 50. BREAKING UP A NATIONAL WIDE 1939 D/B IN EXCHANGE FOR ONES I CAN USE. ALSO BREAKING UP A 1921 D/B WEST COAST LISTING COVERING 17 STATES. BREAKING UP A 1942 D/B COVERING ALL STATES.

WOULD APPRECIATE ANY ADDITIONS IN THE WAY OF LISTINGS, RUBBINGS OR TRADE OFFERS ON RESEARCH MATTER. -----MANY THANKS-----

HELP

I'm doing a catalogue listing of trade tokens, transportation tokens and misc. medals, awards etc. from Tacoma Wash. and the towns that border Tacoma. I have had great input from collectors all over Washington, as well as other states. If you have even a few tokens from any of the towns listed below (no matter how common you think they are), I would appreciate a "slash mark" listing of what you have. As any of the cataloguers will verify, the more collectors that contribute to the listing, the better the listing will be.

I need to know about your tokens from these towns

Edison	Lakewood	Spanaway
Fern Hill	Midland	So. Tacoma
Fife	Old Tacoma	Steilacoom
Flett	Old Town	Summit
Lake City (Pierce Co)	Parkland	TACOMA
Lakeview	Ruston	Titlow Beach

I am also interested in buying &/or trading for extra Tacoma and Tacoma area tokens (see list above), as well as better Washington tokens that you might have. I love to "talk tokens", and maybe we can make a deal.

THANKS FOR YOUR HELP

(Stanley Tinney operated a small cafe adjacent to his gas station. Any time a hunter or fisherman talked about "the one that got away" he was given one of these tokens. It was good for a beer or a soft drink at the cafe.)

The above is taken from LOUISIANA TRADE TOKENS which Glyn Farmer, Ed Tylenda and myself are writing. This book is nearing completion and we would like all members to send in listings of their Louisiana tokens. Even if you believe what you have is common, the information will be helpful in establishing the rarity. I will refund the postage for anyone who sends me a listing.

It appears that the cost of this book will be about \$15, so anyone who would like to reserve a copy at this time, please send me a postcard. Hopefully, the book will be ready by the end of the summer. Thanks to all members who have contributed thus far.

U.S. STATE-ISSUED SALES TAX TOKENS

SECOND EDITION (1980) REVISED

by Jerry F. Schimmel

NOW AVAILABLE!

Sales Tax Tokens are as close as we have come to state coinages, and this 28-page booklet provides a "type set" approach to that unique U.S. token-collecting field. Photographs are provided for each major token design and estimated market values are included for both circulated and uncirculated pieces. The Second Edition updates the 1973 First Edition with improved photos and corrected information. The same numbering system is used as in the First, but additional numbers are given to cross-reference to a larger work, Chits, Chisellers and Funny Money. There is also a new four-page historical example section on the evolution of the Missouri State series using newspaper excerpts from the 1930's and 1940's. The book does not include information on the well-known Illinois series or paper and cardboard issues used in many areas.

Costs for tokens in this field are now low and the series makes a good collection for young and beginning collectors as well as advanced. Most of the tokens can be assembled into a collection quickly and for little cost, although as in all collecting fields scarcities exist. For those interested in the thousands of varieties that exist in this series special reading references are given.

For dealers the booklet opens new sales opportunities for pieces that would ordinarily sit quietly in their junk boxes. The availability of this book and the low cost of Sales Tax Tokens will bring collectors into shops where they would not usually come because of the higher prices of other collecting items.

1 copy \$2.00 postpaid; 12 copies \$14.40; 50 copies \$50.00; 100 copies for \$80.00; shipping charges added to wholesale orders.

Trade Token Topics is the official publication of the Merchant Token Collectors Association and is published monthly in Seattle, Washington. Mailing Address: 752 North 74th, Seattle, Washington 98103. Bary D. Bender, Editor. Telephone: (206) 782-5769.

Trade Token Topics will be mailed on the first of each month to all members in good standing. Dues will be \$8.50 per calendar year. Every member of METCA is entitled to a free ad of four to six lines each issue provided it is remitted each month.

Display Advertising Rates Per Issue:

Make all checks or money orders payable to METCA, 752 N. 74th, Seattle, WA 98103.

Thanks to Joe Schmidt for the special maverick listing in this issue. See John Mutch's classified ad - news from the Idaho cataloguer. Robert Fleet is currently working on a project to get an accurate count of TX lumber tokens. Please read his classified ad (and cooperate in this effort to adjust the rarity scale on TX lumber tokens). The new rarity scale compiled from this survey will be made public.

Regarding mail bid sales - a number of those who conduct regular mail bid sales in TTT request a prompt check when noticed so they can clean the slate on one sale before it runs into another sale and lends confusion.

The next issue will be a double issue with several nice articles by the membership. I will try and get the lion's share of the membership roster out, too. Many new collectors have entered the field since I took over in Nov 76. Kent Johnson, Rt. 3, Concordia, KS 66901 writes to inform the membership of the 2nd Annual Token and Medal Swap to be held in the City Park on Sunday, August 2, 1981. Last year collectors from OK, KS and NE attended. Tables are free but reservations would be appreciated.

Regarding receipt of TTT - all the issues are mailed the same day and with first class postage. If you receive your issue at an awkward date, it is probably because I am always behind the eight ball. Please be sure to send in addresses of change as the cost of postage is having a negative impact on the operation of METCA.

The April Fare Box (AVA) reports that Jim Hemphill, PO Box 1321, Lake Oswego, OR 97034 is accepting nice transportation tokens for the August AVA Convention in Park City, UT.

Interested in NJ exonumia? Contact Al Zaika, PO Box 65, Bellmawr, NJ 08031. The 5th Annual DVVA Token and Medal Show will be held May 29-30 in Philadelphia at the downtown Sheraton.

\$5.00 to Cindy Grellman, 308 Janice St., Prattville, AL 36067 will get you membership in the Civil War Token Society and four quarterly issues of The Copperhead Courier, official publication of the CWTS.

A SPECIAL MAVERICK LISTING !

Between January, 1898 and December, 1901 Dr. Benjamin Wright listed many hundreds of tokens in issues of the NUMISMATIST. All types of tokens were listed, including mavericks. The work "American Business Tokens" is a compilation of the early NUMISMATIST listings and is available from Quarterman Publications, Inc., 61 Park Dr., Boston, Mass. 02215.

Since many METCA readers do not have this work or the time to peruse it for mavericks this list is provided. Should you be able to identify just one piece it would be of immense help and would identify a token as 19th century as well! I've eliminated Wright numbers, size, composition and abbreviated GOOD FOR, IN TRADE, IN MERCHANDISE, etc. to utilize space to a maximum degree. The listing is selected.

Please send identifications to me and I'll provide full information for you and a list of identified pieces will be attempted. SASE only please! Joe Schmidt, Box 471, Bensenville, IL. 60106

Most of these feature an address, partner, die sinker, building name or the like. This is to make identification easier, of course. There are a few herein I know the location of and you probably will, too! Remember, this is a listing from 1900 so I wouldn't doubt a number of these have been identified since then. Whatever, I hope to hear from you or you may send Lee Nott identifications. I just hope one of you reading this can get a maverick identified!

For concluding remarks I might add that METCA regular maverick guidelines have helped all of us and that this task undertaken by Lee Nott of overseeing that section is hard work that goes unnoticed by many after the maverick is identified - or after it isn't! So thanks, Lee - this listing of mine served as a reminder of how hard it is to do every month - I know METCA members appreciate your efforts!

IN MEMORIAM

Dennis L. Scott, P.O. Box 373, Clovis, CA 93613 reports the untimely death of his father, Warren B. Scott, METCA #192, on May 6, 1981. Warren lived at 1001 Sylmar Ave., Clovis, CA 93612. Those who knew or had corresponded and traded with Warren knew that he was an asset to this hobby. He will be dearly missed. This is the third or fourth METCA father-son duo to be broken up in recent years by an untimely death. However, what a joy these father-son teams experienced in sharing the same fondness for this hobby together. Our prayers go out to Dennis and his family in the loss of their loved one.

REV. DOING A LITTLE BUSINESS / ON A LARGE / SCALE (BOY ON SCALE)

Write Tom Wall at Box 1242, Independence, MO. 64051 and ask for a copy of his next mail bid sale, which usually features over 3,000 lots. Maybe he'll have a token like this or the one below. I thank Tom for taking time out from being generally just plain busy to send these two in. Tom, unlike many dealers, handles the entire mail bid sale headaches by himself. He asked "can you see what the little boy is doing?". Yes, Tom, he is doing his business, alright! Who says tokens aren't interesting? I'm entering my fourth year of penning this column and the tokens just get more unusual and stranger! I hope to hear from more of you, as always!

BRASS 25MM ROUND DEFACED BY HOLEING

OBV. NICK SANDRO / ITALIAN / INTERPRETER REV. GOOD FOR / -5- /
CENTS / IN TRADE

Tom thinks this is from Riverton, IL. but I couldn't find it in my 1921 directory. Can anyone else look this up in other years? It was obtained in Dupo, IL. As for Mr. Sandro, why would he put out a token as an "Italian interpreter" that was good for 5¢ in trade? This joins other tokens featured as being unusual!

An important note. The April-June IKO TAMS bulletin reprinted METCA's "A GUIDE TO ABBREVIATIONS IN EXONUMIA". Look for a revised, larger abbreviation list to appear in a future "TRADE TOKEN TOPICS". Secondly, the same bulletin features an article by Dick Mulfinger, 3116 Dell Place, Glenview, IL. 60025 on how to photograph coins and tokens utilizing an interesting and easily made Magic Mirror Light Box which is described. With Lloyd Wagaman's permission I'd recommend that anyone who is interested in token photography write Mr. Mulfinger and please don't forget that self addressed stamped envelope! After all, if the 20¢ @ ounce letter is coming lets help out everyone we write for information or fill up a 12¢ postcard as I do!

OBV. SKEDMORE'S / 5 / 1248 MADISON ST.

REV. (AN "S" BETWEEN A PAIR OF SKIS)

Mike O'brien collects anything from Aurora, IL. and chopmarked American coins but always manages to find time to send in a nice seldom seen token! If anyone had any doubts about how Mr. Skedmore's name was pronounced this piece was a constant reminder. Did you know that Aurora, IL. was the first city in the country to be entirely lit by electric lighting? For this reason, many maverick tokens bearing "City of Light(s)" are from this town. It was, I might ad, my pleasure meeting Mike at the 1981 National Collectibles Exposition in Rosemont, IL.

The March/April column brought 2 responses regarding the Toy Bank Building in Sioux City, Iowa. From Bill Williges: (oops, write Bill and help with postage for his price lists - Box 445, Wheatland, CA. 95692. I see nice material on his latest list!)

"There was an Iowa Optical Co. in Sioux City 35 years ago, and the Toy Bank Building was established by Mr. Toy around 1900, this gentlemen being a friend of my Grandfather. I beleive it is the largest bank in Sioux City and the only one that didn't go bankrupt during the depression. My family had accounts at Sioux National & Toy National Bank. Sioux went broke and paid around 20¢ on the dollar. I remember my Father saying that old man Toy was tough to get a loan from but at least he didn't go broke!"

From Phil Chinitz:

"Toy National Bank in Sioux City was owned by the Toy family. According to my information Carlton Toy was president in 1929."

A tip of the hat to Bill Williges and Phil Chinitz! I cannot help but wonder if the Toy Bank issued a toy bank, and if the word "bankrupt" originated after the '29 crash.

REV. N

Rocco Di Giacomo, who is always after another bi-metal for his superb collection, sent in this rubbing, a mystery to me. Then again Rocco has sent in a number of perplexing pieces! You've probably got us with this, too, but does any reader have an idea of what this was used for?

Read the excellent April-June IKO TAMS bulletin and noted Lloyd Wagaman's "INDIANA TRADE TOKENS" will be available soon. \$16 hard bound & \$12 loose leaf. Order from "IKO TAMS BOOK FUND", Box 377, Fairfield, Ohio 45014. This one is worth every penny!!!

ODD & UNUSUAL TOKENS

ALUMINUM 26MM ROUND

OBV. STREATON MERCANTILE COMPANY / CARBON / HILL, ILL. / STREATOR, ILL. /
KANGLEY, ILL. / RATHBUN, / IOWA.

REV. GOOD FOR / 25 / IN MERCHANDISE

Here we have two nice tokens from La Salle County & small town Illinois collector Phil Klabel. The first above is quite an unusual token one very rarely sees - a 4 town, 2 state token! The Streator Mercantile Co. had many stores in Southern Illinois small towns during a long period of time - perhaps from 1895 until World War II. I don't have Don Edkins work on coal scrip handy, but believe this to be an unlisted piece. Certainly other denominations must exist as well. Now Illinois and Iowa can each claim this token! My thanks to Phil for sharing this piece with METCA readers. Anyone else have an unusual token? Make a good rubbing and send it along!

My plea for unusual tokens from our CANADIAN friends is so far unanswered. I would definitely like to feature a number of these tokens. Many METCA members are Canadian and I'd not like readers to see their unusual tokens ignored.

BRASS 32MM ROUND

OBV. HENRY'S / 312 / E. MONROE / UNUSUAL FOOD

No reverse rubbing from Phil on this one, but it's too nice to pass up! Did Henry's feature unusual foods or just a token amount to pique interest, as does this token? My guess is that unusual foods were served. Now all we need is to hear from a long-time Chicago resident who frequented this establishment.

I was gratified to get a 3 page letter from LeRoy Wright, Box 81, N. Versailles, PA. 15137 concerning the lack of Oriental struck tokens from other cities than San Francisco, especially Eastern cities. Why is this? LeRoy speculates that many Oriental tokens were used generically in HONGS, or gambling dens, which largely were illegal in the East. If so then merchants would not want themselves identified with these establishments. LeRoy wrote much more I can't mention here, but as a serious collector of these pieces I'm sure he would like to hear from you at the above address should you have rubbings or struck Oriental tokens you would like information on, even if conjecture.

ALUMINUM - THE UNCOMMON COMMON METAL

Most of us know so little about the metal that probably accounts for the majority of all exonomia ever produced, and rightly so, for the making of aluminum consists of many steps. Basically, bauxite is refined to alumina and alumina smelted to aluminum. First, bauxite (or aluminum ore) is crushed and mixed with a caustic "soda" and pumped into digesters. Under extreme pressure and heat this caustic soda dissolves the alumina (aluminum oxide) in the bauxite forming sodium aluminate. In settling tanks solid impurities fall to the bottom of this mixture and are pumped away, the sodium allowed to cool while seed crystals are then added in order to form larger crystals. These are separated from the solution seed crystals and the remaining sodium aluminate solution is recirculated.

The alumina is now dissolved in a molten cryolite bath which acts as an electrolyte (a powerful current which separates aluminum from oxygen) causing the elimination of molten metal which drops to the pot's bottom. Only now can the aluminum be removed by crucible to a furnace for alloying with other metals.

Aluminum tokens are formed from blanks punched from a sheet of the metal. These blanks (or planchets) are fed through an upsetting mill to give them a rim and are then ready to be fed to the die, surrounded by a collar, for striking at the correct amount of pressure.

In the late 1700's European chemists suspected an ore existed in certain rich clays. One such deposit in the town of Le Baux, France lent its name - bauxite - to all known aluminum ores. Obtaining the elusive metal from these clays proved difficult, however. By 1825 Danish Physicist Hans Oersted treated alumina with carbon and chlorine, eventually deriving a mix of aluminum and mercury. Boiling away the mercury gave Oersted a small powdery amount of the metal he likened to tin! Although production costs were to drop, aluminum was to remain a semi - precious metal for some

time. In 1884 the completed Washington monument was topped by a pyramid of aluminum - at 100 ounces the largest piece yet produced. Before placement atop the monument it was displayed for a time at Tiffanys in New York, awing thousands!

Early in 1886, Ohioan Charles Hall added electric current after dissolving alumina in molten cryolite. In France, Paul Heroult used this method at almost the same time as Hall. So the Hall - Heroult process, virtually the same as that already described, freed the metal for common use. By the early 1890's aluminum was being used for token making on a large scale, its qualities being touted on many die sinkers pieces (note photographs below). The aluminum token you now have presents an anomaly - only 100 years ago aluminum and gold were utilized for objects of art produced for royalty! So ends the story of aluminum, told briefly and generally due to space limitations. It is hoped the reader was as enlightened as the author!

J. S. Smith

The American Terra Cotta Co. of Chicago told us that Terra Cotta contained a large amount of aluminum.

This S.D. Child's reverse die was an ad for the qualities of the metal and was used with many tokens, the first in early 1891.

An example of the now desirable bi-metal pioneered by S.D. Childs of Chicago. The outer portion was brass, with few exceptions.

Most unusual! The Turner Brass Works of Chicago distributed their medallic ad in aluminum.

----- AT THE NATIONAL COLLECTIBLES EXPOSITION -----

By Joe Schmidt for METCA

Exonomists from all over the country attended the National Collectibles Exposition in Chicago suburb Rosemont, Illinois. Over 50 dealers set up the well lighted, covered tables on Friday, March 27 and business among the dealers was brisk. The Convention Hall at the Ramada O'Hare was excellent, although few dealers seemed able to find the hall without direction. Confusion regarding "set-up" time saw dealers arriving at 10:00 AM, 1:00 PM and the correct 3:30 PM time offered by Joel Reznick. Only this snafu and a near total lack of security when loading and unloading cars marred this show.

The rest of the 1980 first show's bugs seemed ironed out and Rich Hartzog, Paul Cunningham and Joel Reznick's efforts paid off with what may well be this year's finest exonomia show. Collectibles seem an integral part of this show, I spoke with many of the dealers as they searched for postcards (a great item!) to match token firms or towns they needed. One fellow walked by with baseball cards of the 1950's team he had fond memories of. Seeing these dealers so interested in political, paper, and other ephemera was amusing - until I found postcards of hometown Elgin from pre-WWI and paid insanely high prices myself! If I could relate a message to the show organizers it would be that the collectibles are as important as the exonomia.

The Saturday and Sunday crowds were greeted with the finest selection of exonomia ever in the Midwest. Why don't you East and West coast dealers take in this show in greater numbers? The ones that did come in were amazed with the results of 2 days sales and you can bet they'll be back! As for exonomists, the next two or three Collectibles Expos should be must attendance. Why? Quite simply, quality material is slowly being snapped up and rather rapidly gaining in price. Tokens I could have purchased a year ago for \$15 were routinely priced at \$30 this year. Honestly, attend the Expo next year and get what you need from the huge selection available at this show and in coming years you'll consider the prices a bargain!

Now for a little sting! While purists may opt for a sales only show, it is my personal belief that exhibits are a necessary part of any show, and last year's fine exhibits were missing save this writer's minor effort. This is a definite loss! Exhibits stimulate the mind and delight the eye. Since our early childhood we are constantly shown things - in school, by our parents, etc. Any way we can help fellow exonomists learn should be used and applauded. I am reminded of the story about the circus. It remains, in reality, an exhibit! Loved by all-old and young-we go to see these glorified exhibits (in effect) and always learn. Anyway, why not continue to feature exhibits? After all, we exonomists, you'll agree, go to coin shows locally and nationally and view exhibits of coins, errors, paper money, stamps, etc. but rarely do we see exonomia. Rich, Joel and Paul could be at the forefront of educating and entertaining exonomists with exhibits.

On a short, personal note, I met hundreds of exonomists I'd not seen since the last show and many with whom I've only corresponded. I only wish I had time to relate stories and mention names, but this and the next 20 pages would be used, so I'll only say I thoroughly enjoyed meeting you all and wish that a few thousand of us could get together at one show. Perhaps it will be next year's best exonomia and collectibles show, the National Collectibles Exposition!

When A Dollar Was A Dollar

By Ed Saunders

Today we are in a time when the dollar seems to be of little value; inflation is eating away our buying power every day and some of us wonder if we are going to have to have a wheel barrel to buy a loaf of bread.

In the 1950's a dollar an hour was a good wage, of course, one could rent a house for \$20 a month, buy a hamburger for 25¢ a lb. or gas for 17¢ a gallon, buy a coke for a nickel and get one of the biggest ice cream cones for a five cent piece, and you could go to the movies for 20¢.

The dollar was even more precious in the early 1930's when the depression was in full swing. Jobs were as hard to get as they are today, if not worse. Men were working for a dollar a day and glad to get it. In 1931 one could buy a chicken dinner for 50¢, hamburgers for a nickel, and a three-layer cake was only 39¢. Roast beef sold for 19¢ a pound as did mild cheese. It was a time when the dollar really bought it's worth in products.

Today, is a time when the dollar is struggling to keep it's head above water. In the world markets it is only worth a portion of what it once was yet it still represents the power of a great nation and we can still take pride in it. It will remain powerful when we put pride in products and actions that work towards those things that retain quality. It will be as powerful as we are willing to make it - the dollar is going to be around for a long time, I am sure.

Take a look at the dollar tokens on this page. They represent a good variety of businesses and services. They can be found almost anywhere from Alaska to West Virginia, from Arizona to Nebraska, from California to Oklahoma, Texas to South Dakota. The dollar has been a vital part of our nation's economy. It has reflected our nation's moods, it has carried our nation's honor, and purchased some of our nation's territories - Alaska, Louisiana and others. It has brought us a wealth of good living and it still represents a payment of honor and integrity.

This is just a few of the dollar tokens I have in my collection. I started picking them up as a fun thing to do. One can always find one from somewhere. It is fun to do and there are many that can be purchased very reasonable.....They are not as numerous as the 5¢ and 25¢ token, but they are also the largest one of a set, in many cases, and usually made in smaller amounts than the smaller denominations.

One can collect some of the more scarcer varieties - it is all in one's liking. I like the larger size tokens. I also like the 6½¢ varieties. Others like the Bi-metal type of tokens. Have you ever thought of Fiber tokens, unusual metal, or material tokens? All of them have the same potential as the dollar token. Some are much fewer in number, but all are fun to collect, and no matter which way one goes it will make an interesting collection. And in the long run one will get their dollar's worth. As far as tokens are concerned a dollar is a dollar yet today. Consider the lowly dollar token for you can really get your dollar's worth and have a wealth of fun and enjoyment in doing so. Give it a try and I am sure you get a new look at the Dollar. It has been in some great places and can tell some interesting stories.

TOKEN COLLECTORS AS HISTORIANS ?

Basically, it's true. Most serious exonumists are historians of some note. Referring to people I know may show favoritism in some minds, but it's just that I know these people and what they do. Chuck Berndt lives in McHenry county, Illinois just Northwest of Chicago and collects tokens from different Illinois towns but specializes in those from McHenry county. Adjuncts to his token collection include postcards showing business establishments, phone directories, business directories, photographs and more. Chuck also knows more about town history than most people in his area, if not all. Ben Odesser once drove halfway across the state of Illinois to attempt to trace one token - without any luck! I doubt if Ben was about to consider the journey a waste of time, though.

Most amazing is Grant Schmalgemier, a Chicagoan in his 50's who maintains the largest known collection of exonumia from the 1933 Century of Progress Exposition held in Chicago. Did I say exonumia? Actually, Grant oversees a collection of ephemera the likes of which few of us have seen which takes up an entire basement, file cabinets and more. Glass axes, parasols, a window, thousands of postcards, toys, scarfs - the list goes on and on - you name it and Grant has it. His exhibit at the 1980 National Collectibles Show was not to be missed, and Grant speaks with knowledge few of us can dream of when he talks of those days and items from 1933. My own research into 19th century Illinois exonumia is augmented by Rich Eckebricht's excellent work. His microscopic studies of die letter punch links have proven many pre-Civil War tokens to have been struck by S.D. Childs of Chicago. Singlehandedly he's taken apart the hannah & Hogg tokens, listing them by obverse and reverse die characteristics and identifying die matings. More than just an historian, Rich might be considered an exonumia scientist of sorts! Founding fathers of exonumia of modern times such as the Fulas, Russ Kulau, Mr. Coffee, David Schenkman, James Curto, Arlie Slabaugh and others have left indelible marks on our hobby, advancing it in great leaps.

Joe Levine's interest in political and presidential items seems to consume much of his interest and he qualifies as an expert in this area. Tom Wall knows a great deal about a lot of things - Southern Illinois history and tokens, Alaska exonumia, ad mirrors and the like. I doubt if an individual town the size of Quincy, Illinois is represented by as many tokens as Bill Massey has gathered. You might ask what the point is to all of this - well, it's simple. Elijah Singley knew little or nothing about Green River whiskey tokens two years ago, now he may know more about the different tokens and their history than anyone. All of us who collect exonumia gather related items such as books, photos, postcards, directories and the like. So whatever you collect, you are a knowledgeable person! If your thirst for acquisition of history and local color is as great as that for acquiring exonumia you can become or already are an expert in your field - a fact you might not even realize! If you enjoy it, please keep at your collecting interest. When you identify a maverick and place it in your collection, finding out a little about the issuer, etc. you are indeed taking one more step toward establishing yourself as an expert. You are more than a common accumulator. Share your knowledge with others and in my mind you'll become the ultimate exonumist - an historian and a teacher - so be proud of it! Even if you're not inclined toward writing, talking with and informing other collectors and corresponding with others puts you in a class shared by few. So when you next look into a mirror you may rightfully be gazing at THE expert in your field of exonumia.

ANNOUNCES

AN OCTOBER MAIL BID SALE OF

SALES TAX TOKENS

SCRIP, COUPONS, PUNCH CARDS, ETC.

THE COLLECTION OF JERRY F. SCHIMMEL

The sale will include rarities and unique pieces in California paper, Illinois provisional metal and cardboard tokens, a major collection of Missouri counter-stamped cardboard tokens, Ohio private-issue punch cards, a large selection of Ohio state-issued punch cards by control letter, Washington provisional and private cardboard tokens as well as a selection of the rarer Tenino wood series. Paper items from West Virginia and Canada are included as well as anti-sales tax tokens and other artifacts, patterns, presentation pieces. There is a wide selection of errors and misstrikes among both state and Illinois provisional issues. This collection has formed the basis of much of the Sales Tax Token literature since the late 1930's - more than 550 lots.

To obtain a copy of the sale and prices realized send \$1.50 to:

METCA MONITOR

The following two fakes are currently making the rounds at flea markets and antique shows in the Eastern States.

Obv. The Girl In The White Cap/One Of The "57", girl holding a bottle.

Rev. One Of The Girls/Who Help/To Make/Heinz/Food Products/The
Best In The World. Made in brass and WM, Both are 38 mm.

Obv. Print/Coca Cola/San Francisco/Trans Pan/Exposition.

Bey. Good For/5¢/In Trade. Brass, 29 mm.

Most of these are in mint condition, but I have also seen a few specimens that have been tumbled and stained, with prices ranging from 5 to 15 dollars.

This will probably be my last contribution to the Monitor page. The response to my requests for reports and information about fakes has been very poor and I find some of our members are still offering exposed fakes, in their for sale and trade ads,

Mr. Bill Ehrstrom

Eureka, CA 95501

Dear Mr. Ehrstrom:

Thank you very much for your recent letter. The tokens you described in your letter are not items ever produced by The Coca-Cola Company. Rather, they are a creation of some enterprising manufacturer attempting to capitalize on collector interest in memorabilia produced by The Coca-Cola Company. The Coca-Cola Company never used metal tokens of this type as sampling coupons in our long history of such activity. In almost all cases, coupons we developed were produced on paper or cardboard.

Tokens similar to the ones you acquired have been produced in a variety of shapes and designs over the last few years and have been distributed heavily at antique shows and flea markets. Regretfully, they are total fabrications and have little if any value to serious collectors.

Thank you for taking the time to write to us about your materials. If there is any way I can be of additional service to you, please do not hesitate to contact me.

Cordially yours,

THE TOKENS YOU DON'T SEE !

Joseph Schmidt

Listed as an engraver in the 1876 Illinois R.G. Dun, Louis Boche presided over the Boche Engraving Company at 166 Randolph Street by 1893, therefore producing dozens of tokens and medals known to the collecting fraternity for over two decades. Curiously, most of Boche's work is inferior and even crude. Operating during the same period of time the firms of S.D. Childs and C.H. Hanson produced some of exonumias most attractive tokens and medals. Louis Boche was a strong believer in advertising his own concern - the vast majority of his cards bear his ad on an entire side! The only example I know not following this rule is the illustrated storecard produced for Augustana College in Rock Island, Illinois. More perplexing, this handsome card was executed in 1893 when Boche's concern also produced many cards bearing his ad, address, occupation and the like - much of them poorly done. The Augustana piece features only a discreet "L.BOCHE" at the base of the chair upon which is seated an allegorical figure of knowledge.

Shown below is a storecard Boche produced about 1885 for the Turn Verein of Elgin, Illinois. Like most Boche tokens, the die-work is simply adequate. Note the off center strike, weakness of obverse letters due to use of a rusty die, weak borders and decorations, etc.

Now note the enlarged photo of a rare trial piece of the same storecard struck on what seems to be a haphazardly cut planchet. Basically the obverse die was maintained excepting new decoration and a badly needed re-cutting of the letters. The precursor of a standard reverse die Boche used for almost a decade is almost comical! The skinny owl and the sword, torch and wreath seem an engravers afterthought. Happily the final result as exemplified by the final version of this card shown above is somewhat passable. We doubt many of these trial or pattern pieces (if this is the proper terminology) were released. They certainly did not represent the companies best work and could well be considered an embarrassment. These pieces show us tokens we don't see just as coin patterns show us what might have ended up in our pockets.

ODD & UNUSUAL TOKENS

ALUMINUM 24.5MM ROUND

OBV. AMERICAN THEATRE / FIRST / & / MAIN / PORTLAND, ORE.

REV. GOOD FOR / THE / DRUNKARD / ONE FREE BEER

"This token was used during the performance of the movie "THE DRUNKARD" and was good for a glass of beer. I have not heard of this theatre and am quite sure it's long gone. By the way I have never heard of the movie, the token is at least 50 years old or older. It could go back to the silent movie days. Maybe someone older will remember the movie or even the theatre."

Again, a quote from Ed Saunders letter and quite an unusual token! Theatre token collectors and those who pursue odd "good fors" would both enjoy this one. Can anyone help Ed with his questions?

What sets exonumia apart from all other hobbies is the fascination with myriad themes and perhaps the love of a good mystery, because many tokens ask more questions than they answer! Ed Saunders and thousands like him all seem to have a few "odd" tokens around no matter what they collect - I hope you do as well. That's what makes this column so interesting to me. I've had chance to see tokens that were amusing, curious, bawdy and what have you. Best of all, METCA members keep coming up with another more unusual than the last, so I'm just as enthusiastic now as I was in February of 1978 when the column started. I'll need at least another 10 years of unusual tokens now, though, so please rub yours and send them in!

Ed Saunders also mentions that he owns a 62½¢ token from Astoria, Oregon! I'd like a rubbing of this, Ed.

Anyone know of the exact whereabouts of CAROLINA MOON PARK? This must be (or have been) located in one of the Carolinas. Maybe Chuck Kirtley or Jerry Roughton can help. I know Chuck likes North Carolina tokens and the token is good for one ride and says "for amusement only", so it may have been an old amusement park token. No rubbing, unfortunately!

(to left) BRASS 30MM ROUND

OBV. 34th WARD / STORE / 880 / W.NO. TEMPLE / SALT LAKE CITY, UTAH.

REV. FROM THE STATUE / OF / LIBERTY / FOREVER / AMERICA / TO THE / GOLDEN GATE

An oddity! Was this a real slogan used by a candidate or just a general patriotic theme? Was the 34th Ward store of a political affiliation? More questions asked than answered! I'm sure that a lot of Utah collectors can help on this. Oh, Chuck Kirtley's fixed price lists can be obtained by writing Box 259, Marble, NC 28905

DISTINCTION

This month I'd thought a list of unusual "good fors" might serve to help stimulate the usually slow Summer mail! I do need nice rubbings of unusual or odd tokens as I'm only 5 or 6 columns ahead of the publisher and am sure there are dozens of you who will want to contribute!

Many of these came from the "TRADE TOKENS OF TEXAS" TAMS supplement by Bill Fowler & Harry Strough. Have you any Texas tokens not in the dual TAMS works on the subject? Write Bill Fowler at 2402 Pickwick Ln., Austin, Texas 78746 and let him know! All the "Texas gang" are dedicated and have helped make trade tokens of Texas the most catalogued of any state.

Now for some gems - mixed with some normal ones for comparison!

Editor
METCA Journal
Seattle, Wash.

Dear Editor,

I have just received the Feb-March issue of the METCA Journal and though I enjoy reading Joe Schmidt's Odd and Unusual Tokens column, I must point out a serious error in the present column.

The token in question reads: Yun Fong Lu Co. / 78 / W. Madison St. and is attributed to Chicago. Mr. Schmidt maintains, on the information of a Chinese missionary, that as a rule, Japanese names end in a vowel, while Chinese names end in a consonant; and that, therefore, this token was issued by a Japanese merchant in Chicago. This is not correct at all!

Checking thru a long list of Japanese names, just about every surname did indeed end in a vowel. However, among the Chinese, about half of the surnames end in vowels and half in consonants. Among Chinese living in America and elsewhere outside of China, the percentage of consonant endings may be slightly higher, because these overseas Chinese come mainly from the southern part of the country and speak Cantonese or Fukienese. In these southern dialects, a consonant is often added to a word that would normally end in a vowel in the north. The spelling of the word may also vary. A good example is the word for happiness or luck; in Mandarin it is written Fu ; but in Cantonese it appears as Fook .

The main difference between Chinese and Japanese names, however, is that Japanese names are usually multisyllabic while Chinese surnames normally consist of only one syllable. In both countries, the surname traditionally appears first, but overseas Chinese and Japanese often give their surname last to conform to western standards. The standard method of writing a Chinese name in English is to place the surname alone (either first or last) and to hyphenate the given name, which is usually two syllables. Without the hyphen, one can never be sure which is the surname and which is the given name. To solve this problem, nowadays most Chinese abbreviate their given names and spell out only the surname. The Japanese often do

the same thing, but their given name is written as one word. Thus usually a one letter abbreviation is Japanese and two letters is Chinese. When abbreviations are used, the surname appears last.

Returning to the token, since there are no hyphens in the name, we can't be sure whether the surname is Yun or Lu. However, since all three words are one syllable, they must be Chinese, not Japanese. The whole question of names may be academic. The last word on the token is clearly an abbreviation for company, so the name Yun Fong Lu may be the name of a company and not an individual. Without seeing the Chinese characters for this name, there is no way to tell for sure. The following list gives some typical Chinese and Japanese names.

Chinese Names

Ting Fu-pao
Li Tso-hsien
Wang Hsu-tzu
Chiang Kai-shek
Ma Kuo-han
Meng Lin
Tsao Kun
T. S. Chang
L. S. Yang
K. S. Kuo
Lien-shen Yang
Kia-ngau Chang
K. N. Chang
Y. K. Hsu

The first 7 names give the surname first; the last 7 give surname last.

Japanese Names

Tanaka Keibun
Okada Kikusen
Kashiwagi Tanko
Miura Gosen
Ota Bosendo
Nakatani Kozan
Tsukamoto Toyojiro
G. Oshima
K. Nakagawa
M. Oka
E. Hamamura

The first 7 names give the surname first; the rest have the surname last.

FURTHER COMMENT ON THE NATIONAL COLLECTIBLES EXPO

The April - May 1981 TTT saw this writer take the organizers of the NATIONAL COLLECTIBLES EXPO to task for not having exhibits. Of course I handed out a few plaudits, but I owe an apology to Rich, Paul and Joel. Why? I didn't check beforehand and find out (as Rich Hartzog reminded me) that they wanted exhibitors but no one wanted to exhibit! Further, no one wanted to speak! I did hear that there would be no exhibits due to lack of space from Joel Reznick, but this may have been before none of the gentlemen contacted refused to exhibit.

So, for openers, if anyone wishes to exhibit his collection at the 3 rd annual National Collectibles Exposition next March, contact Rich Hartzog at PO Box 4143, Rockford, Il. 61110. and let him know. I for one am a little dumbfounded that exhibitors of exonumia are not clamoring to have their collections displayed for the rest of the collectors to see. It's simply a waste. If no one wants to exhibit how can the younger exonumists learn? How can we bring coin collectors who've tired of high prices and sameness into exonumia? I just don't know - as I stated before paper money, coins and errors are shown all over the country but we seem to be sitting in our chairs and gleefully studying our collections wishing not to let the other guy know what we have - true, isn't it? To some degree? Think about it - even the big names in our hobby don't seem to want to exhibit. Well, if nobody wants to advance the hobby then I've nothing more to say. I know Rich, Paul & Joel all could exhibit but safety may be uppermost in their minds, and they are busy setting up the show. What's your excuse?

Joseph Schmidt

Press release - July 15, 1981
Publication date - Immediate

Finally....After 105 years, a catalog of 1876 Centennial tokens and medals

As the Bicentennial approached in 1976 there was considerable interest in the Centennial tokens and medals of a century before. Unfortunately, there was no catalog of these pieces and after the Bicentennial passed, the series went into hibernation. Recently, there has been a reawakening of the series, as may be noted by the high prices obtained in several auction sales.

One important segment of the Centennial tokens and medals is the group in size 12 and 14 (12/16 and 14/16 inches) that feature Liberty head, Independence Hall, U.S. Capitol and other Centennial designs. These pieces, made in the form of medals and as tokens using the same designs but with merchants' advertisements, have never been adequately catalogued. The publication of a new catalog on this subject by Arlie Slabaugh will go a long way toward filling that void. The author, who is past president of the Token and Medal Society, has been a collector for more than 40 years.

Nearly 700 types and metal varieties (white metal, copper and brass) are catalogued and priced in "American Centennial Tokens and Medals." Most are tokens and this is a couple hundred more than had been listed before in various sources. What's more, they are all listed together in systematic order for easy reference. Also included in the 76-page (6x9) catalog is background data, an index, and illustrations of important types; Soft bound.

Copies of the catalog may be obtained from dealers in tokens and medals or numismatic literature, or direct from the publisher, Paul Cunningham, Box 1, Tecumseh, Mich. 49286. The price of the catalog is \$4.95 postpaid.

Wholesale price schedule: 3-10 copies, 40% off
11-100 copies, 50% off
101-1000 copies, 60% off [shipping extra]

NEWS - or - BOOK REVIEW

PRESS RELEASE

Catalog Available

A second edition of Ku Klux Klan Tokens was released June 1 by Research Associates to upgrade their 1977 catalog which enjoyed highly favorable review in a number of numismatic and collector publications.

Doubled in size to 40 pages, editor D. E. Birdsell reports 79 die-struck Klan tokens and trade tokens dating from Reconstruction to 1981 (with fakes exposed), 29 unique handcrafted pieces, and an added exounumia section of 10 pages featuring 40 spinners, tags, fobs, charms and medals. Some 244 photographs present obverse/reverse and adjacent captions identify symbols and clear up some of the mysterious messages. The estimated market value chart has been revised in keeping with Consumer Price Index and includes the KKK exounumia which is being incorporated into Birdsell's devised numbering system-- a reference now cited by leading mail bid lists, dealers and collectors for identification purpose.

The 1981 catalog is \$5 each postpaid, with library and dealer discount offered, and may be obtained by writing to Research Associates, P. O. Box 442, Swartz, La. 71281.

BIG SHOW

TRADE TOKENS WOODEN MONEY

TOKEN AND MEDAL SHOW

SEATTLE, WASHINGTON - OCTOBER 31 & NOV 1, 1981 - TOKEN SHOW

A TOKEN, MEDAL, WOODEN MONEY, POSTCARD & COLLECTIBLE SHOW WILL BE HELD AT THE NONSELANDER RESTAURANT, 300 3rd N, SATURDAY AND SUNDAY, IN SEATTLE WASHINGTON. THE TOKEN AND MEDAL SHOW WILL BE A PACIFIC NORTHWEST TOKEN AND MEDAL GATHERING. WE HOPE THAT A GOOD NUMBER OF TOKEN COLLECTORS FROM THE WESTERN STATES WILL BE ABLE TO ATTEND THE TWO-DAY AFFAIR.

SHOW HOURS WILL BE 10:00 A.M.-10:00 P.M. ON SATURDAY & 10:00 A.M. - 5:00 P.M. ON SUNDAY.

By now many of you have probably heard that Forrest Dunham, Washington State collector from Seattle, has passed away after a long illness. This occurred when METCA was already at press last month so the word will just now reach many of you with this issue. I had not planned on a PNW Token & Medal Show this year due to the paucity of material and scheduling hassles I always have to face. However, the WA - OR bunch put pressure on me to go ahead and then word that Forrest's material would be entrusted to METCA to dispose, gave me the impetus to forge ahead with a show. Naturally, I had to hastily put together a regional show on a tight time schedule. I arrived at the Oct 31 - Nov. 1 date to avoid conflicts with local coin show dates, and reasonable room availability is difficult to secure. So, I apologize for the short notice regarding the show. Forrest was one of the truly great in exonumia circles. I am sure hundreds out there have corresponded at length & talked to him on the phone for lengthy periods over the years without having met him. I am privileged to say I did both and spent many, many hours with him over the years at his house then his apartment. I met Forrest in 1967 and traded, consulted, and confided in him for years. He had a tremendous Washington State collection, probably owned and dealt in most Alaska rarities over the years, and had a fantastic saloon token collection. He was free with his information and what a memory! He was one of the great maverick identifiers - spending hours each day in his large directory library. He will be dearly missed by all of us who were fortunate enough to have had fellowship with the man over the years.

METCA is pleased to have some outstanding material from the late Forrest Dunham estate at the Pacific Northwest Token and Medal Show to be held Oct 31 - Nov 1, 1981 at the Norselander Restaurant (Norway Center), 300 3rd W., Seattle WA. There will be a Saturday evening auction of saloon tokens, territorial tokens, some Alaska material, advertising mirrors, pinbacks, medals, political items and some incredible nation-wide good-for mirrors. There will be lots of tokens from all states for sale at the show. Due to the size & variegated extent of Forrest's collection it will take some follow-up mail bid sales to dispose of some of the material. If you are a beginner you'll never get a better opportunity to purchase material and if you are advanced you'll probably find some exciting material. There are over 500 saloons that will be available over the next few months from all parts of the country. Please note that 300 lots in this issue of TTT will be mail bid only. The 200 live-auction lots have a mail-bid deadline of Oct. 26th. There will be lots of boxes of modest priced material to peruse. Several PNW collectors will have 1 or 2 day tables to sell & trade from and there will be some out of state dealers with nice material. There should be about every facet of exonumia available at the show - fraternal pins, watch fobs, postcards, token catalogs, etc. A great number of states are represented in the ribbon/medal category. There will be hourly door prizes, free back issues of TTT, and a small Sunday selection of material for secret bids. A raffle for a shot at some outstanding material will be included.

Regarding the auction of 200 lots Saturday evening at the show - we would like to cease the bourse activity for the 7:30 PM auction and keep the talking to a minimum. Bids will be basically silent with each bidder assigned a bid card to hold up when bidding. Mail bids on the 200 lots should be in by Oct. 26th.

Williges, PO Box 445, Wheatland, CA 95692 will send a current exonumia price list free to any fellow METCA member who requests it.

In the Sept. issue of TOKEN TOPICS of the Calif. Assoc. of Token Collectors Robert Ritterband authors a very interesting account of the AVA convention held Aug 7-9 in Park City, Utah.

S.L. Steinberg, Box 512, Molden, MA 02148 has a supplementary list #81A of misc. exonumia & related items to accompany his 155 piece mail bid sale list #81.

ATC & PN's September issue features a lead article on "Gustave Priesner & His Tokens McCarthy, Alaska - Circa 1918" by W.E. Nickell.

Get one of Dick Grinold's exonumia fixed-price sales, write Dick at Box 18002 Minneapolis, MN 55418.

Please notice the 1/4 page ad of Leslie Hill regarding the B.C. Trade Token Catalog. I gave Leslie's wrong address last issue so trust you'll note the correct address in the ad.

John & Glenda Cheramy, P.O. Box 5214, Station "B", Victoria, B.C., Canada V8R 6N4 has a 1 page listing of Canadian trade dollars for sale.

Harry Campbell report - Harry is back from Australia and is presently going into business as a coin and collectibles dealer. he will, from time to time, put out periodic exonumia lists on mail bid (the first one available now for a large SASE). Harry's shop - Campbell's Coins & Collectibles is located at 44 East Stratford Avenue, Salt Lake City, Utah 84115. Harry will dealing in U.S. and foreign coins and specializing in tokens and medals together with stamps, exonumia in general and small collectibles.

Harry has begun work on a revised edition of his book "Campbell's Tokens of Utah", which was published last year in a limited edition & quickly sold out. The next work is scheduled for 2 years hence, & Harry requests new finds or comments, etc. be forwarded to him at his store.

Harry is presently re-printing another 100 copies of "Campbell's Tokens of Utah" at \$29.25 plus \$1.25 postage, available at Campbells, 44 East Stratford Avenue, Salt Lake City, Utah 84115.

The Joseph Schmidt Collection of 19th Century Illinois Storecards is being offered by Tom Wall Mail Bid Sales, Box 1242, Independence, MO 64051. Sale of the 169 pieces closes Oct. 10th.

Charles Kirtley, P.O. Box 2273, Elizabeth City, NC 27909 has a 26 page listing of exonumia in his catalog of exonumia issue 25.

I apologize for not getting out the membership roster. I have intended to get it out for years but I just haven't stuck with it. I, too, feel trading token is the heart of our hobby, and I know without a roster trading within the membership ranks is very difficult. With this in mind, I promise to get the roster out before the year ends.

Have started preparing a new book of "Campbell's Tokens of Utah". Need all new material and comments. Please write:

- 29 COLUMBUS (BUST) 1492-1892 / LANDING OF COLUMBUS (SHOWN). Brass, Ef, holed.
- 30 1914 (NAKED MAN ON HORSEBACK) NACH PARIS / GOETHE-THE PRUSSIAN IS CRUEL BY BIRTH. CIVILIZATION WILL MAKE HIM FEROIOUS. LOUVAIN, THE LUSITANIA, EDITH CAVELL, CAPT. FRYATT, THE ZEPPELIN VICTIMS. Au, dark bronze, high relief, 35mm.
- 31 COLLIE CLUB (COLLIE) OF AMERICA. Uniface, Au, 36mm. SILVER, very attractive.
- 32 The above 34 pieces as a lot! The Malcom & Gaul (#1) piece is rare in true gem uncirculated and should be valued conservatively at \$40 to \$60 in Rulau's forthcoming 1845 - 1860 storecard work. The minimum bid for the 33 pieces is only \$100, or a little over a dollar each for the other 33 tokens and the Malcom & Gaul token! If single bids don't make the amount bid for the entire lot all could be had at a very nice price!

FURTHER TOKENS...

SEATTLE TOKENS WANTED

BE A CONTRIBUTOR TO THE SEATTLE CATALOGUE

WITHIN THE NEXT SIX MONTHS OR A YEAR, I HOPE TO PUT OUT A CATALOGUE OF SEATTLE GOOD FOR TOKENS, WHICH I AM SURE WILL INCLUDE WELL OVER 2000 TOKENS. IN ORDER TO MAKE THE PROJECT WORK, I NEED THE HELP OF OTHER COLLECTORS.

SEATTLE TOKENS ARE SCATTERED THROUGH THE COLLECTIONS OF ALL WESTERN STATE TOKEN COLLECTORS, EITHER AS MAVERICKS OR AS TOKENS FROM A COMMON "TOWN" WHICH ARE THEREFORE IGNORED. YOU CAN HELP ME DISCOVER THE UNKNOWN TOKENS FROM SEATTLE THAT MANY COLLECTORS HAVE:

- (1) BRING YOUR MAVERICKS TO THE SEATTLE SHOW OCT. 31 AND NOV. 1. I WILL HAVE A "MAVERICK TABLE" AS DESCRIBED BELOW TO HELP IDENTIFY YOUR TOKENS.
- (2) BRING YOUR SEATTLE TOKENS TO THE SHOW TOO, EVEN IF YOU THINK THEY ARE COMMON. I AM LOOKING FOR DIE VARIETIES, NEW DENOMINATIONS, AS WELL AS THE THOUSANDS OF NEW MERCHANTS THAT HAVE YET TO TURN UP. OTHER KING COUNTY TOWNS, TOO.
- (3) IF YOU ARE NOT COMING TO THE SHOW, I WOULD GREATLY APPRECIATE A SIMPLE, ROUGH LIST OF TOKENS YOU HAVE THAT YOU BELIEVE ARE SEATTLE, AT LEAST THOSE YOU KNOW ARE NOT COMMON.

YES, SOMEDAY THERE MAY BE A WASHINGTON CATALOGUE.

GIVE YOUR MAVERICKS A HOME OCT. 31-NOV. 1

IF THERE IS ENOUGH PARTICIPATION, I PLAN ON RUNNING A "MAVERICK TABLE" AT THE SEATTLE SHOW OCT. 31-NOV. 1. THE RULES ARE SIMPLE:

- (1) BRING YOUR UNIDENTIFIED MAVERICKS IN 2 X 2'S TO THE SEATTLE SHOW. IT WOULD BE HELPFUL IF YOU CAN PUT THEM IN PLASTIC PAGES, BUT I WILL HAVE SOME PAGES THERE TO PUT THEM IN.
- (2) I WILL PUT THE MAVERICKS IN BINDERS WITH SHEETS FOLLOWING EACH PAGE FOR IDENTIFICATION. WHEN YOU GET TIRED OF WHEELING AND DEALING, HAVE A SEAT AND HELP ANOTHER COLLECTOR BY SPOTTING THE MAVERICKS FROM YOUR AREA. THIS SHOULD HELP EVERYONE.
- (3) MAYBE A PRIZE FOR THE PERSON IDENTIFYING THE MOST TOKENS??

MAIL BID - MOSTLY MASONIC

Bid or trade for Washington State tokens I don't have. These are dupes from my collection.

ODD AND UNUSUAL TOKENS

by JOE SCHMIDT

BRASS 24MM ROUND

OBV. I'M ONLY GOOD FOR ONE LITTLE GAME / AT / PARADISE (IN CARTOUCHE)

REV. IF I DON'T / COME BACK / YOU'RE / THE ONE / TO BLAME

This is from Steve Alpert along with his interesting comment:

Have you ever come across any other token with a worse case of inferiority complex? This token doesn't think much of itself! First it states it isn't good for much; then it doesn't expect to be redeemed; and finally it puts the blame on someone else!

Steve puts out one of the best exonumia auctions around and if you'd like to get a copy of his sale write him at P.O. Box 66331, Los Angeles, CA. 90066. Steve also wrote a fine book on amusement tokens should the subject interest you - write him regarding price at the same address - and thanks for your unusual token, Steve.

From David Bush of Alachua, Florida:

Regarding the token on page 40 of TTT Volume 9 No. 4-5. OBV. GOOD FOR / ONE / PUSH REV. N. Way back yonder about 1900 there was a very popular brand of cigar named "PUSH". Could be! The N I don't know about.

Thanks, Dave! Some of these mavericks which are in the odd & unusual category may never be identified, so even speculation is welcome and in this case not at all improbable.

I hope more of you will send in rubbings of your unusual tokens, I would very much like to feature them! With hundreds of METCA members, this column should be replete with tokens that are just a little "different", but I'm usually just a few months ahead with examples and would like more! You can write me at my business address, Box 471, Bensenville, IL. 60106 or at home, 411 Hill, E. Dundee, IL. 60118. I'll not guarantee your token will appear immediately, but I'll write a column for everyone I get if the rubbing is appropriate. Let's hear from you!

PLEASE notify me if you can figure this one out! It seems arabic, but is obviously not a coin. If a solution is received I'll be glad to print your letter. By the way, does anyone else have a foreign token or the like I could feature? Just send a rubbing and I'll feature it.

The above listing of names are members who (according to my records) haven't remitted 1981 dues of \$8.50. I have been very lax about reminding members of their dues in the monthly issues. Furthermore, I have let it drag on far too long so that it now jeopardizes the last few issues of the year. I take the blame for my laxity and trust that you will remit the necessary dues. I know how easy it is to unintentionally omit sending dues to one of many clubs you belong to. If your records indicate you have paid your dues kindly disregard this friendly reminder.

HELP!

Among the miscellaneous and assorted items of junque that I have accumulated in many years of exonumania (we might as well add yet another word to the language!) I have a number of U. S. Cents to which are affixed gummed labels of various types. These items of exonumia are generally dated in the 50's and 60's, and are largely political in nature. There are a number that were issued by Radio and TV stations, and some were obviously issued by merchants.

I vaguely recall that someone once told me the "official" name for these items and related a bit of their history, including the fact that they are an illegal form of advertising! However, I have been unable to locate the letter fwith this information. Can anyone help?

Best Regards, Bill Massey, 1141 Wagon Wheel Court, San Dimas, CA 91773

MONTHLY PUBLICATION FOR TRADE TOKEN COLLECTORS

MERCHANT TOKEN

COLLECTORS ASSOCIATION

1981

METCA, 752 N. 74th, Seattle, WA 98103

Trust you and yours had a happy holiday season and that 1982 will bring richly deserved blessings.

The National Collectibles Exposition will be held March 13 and 14 in Chicago, IL at the Ramada O'Hare Inn, Mannheim & Higgins, Des Plaines, IL.

An up-to-date Washington State Town List appeared at the METCA SHOW. The nineteen page listing of two dozen collectors is available from Al Erickson, P.O. Box 99667, Tacoma, WA 98499. I believe it is \$3.00 plus postage.

The next National Convention of NSCA is April 30 - May 1, 1982 at the Ramada Inn, Beckley, West VA 25801. This is the tenth anniversary meeting.

Jack Harvill's thorough thirty-seven page listing of THE TRADE TOKENS OF NORTH CENTRAL WASHINGTON is, hopefully, a giant step in the right direction for an eventual Washington State Catalog. With the state having only 39 counties, Jack's listing of the trade tokens of six counties and nearly one hundred towns is surely a welcome step. With the eventual listing of Seattle tokens by Bob Farrell, Spokane tokens by Bounie and John Calhoun, Tacoma tokens by Al Erickson, Kittitas County tokens by Terry Trantow and Lyle Horst, and other county projects in the works, it looks like we are finally making some giant strides towards a state catalog. Thanks, Jack, for a job well done.

For new NSCA Members- one year dues and Edkin's CATALOGUE OF COAL COMPANY SCRIP... loose leaf - Both for \$12.00.

Thanks to Francis B. Shea, Librarian for the Missouri Num. Society, for the July 1981 volume of the Missouri Journal of Numismatics. Michael G. Pfefferkorn as editor and Sandra Pfefferkorn and Francis B. Shea as assistant editors do an incredible job of editing this fine publication. A fine article appearing in this issue is a lengthy "Numismatic History of the Kingdom of Callaway" by Michael. With assistance from Bill Hamilton and others Mike gives a nice local history of the county with photos and treatment of the exonumia of the county.

If you are in the area, visit George Hosek at the PhilaMatic Center, Father Flanagan's Boys' Home, Boys Town, NE 68010 and view the many stamp, coin and exonumia displays.

Thanks to all the wives out there whose "behind the scenes support" make all these projects possible. We appreciate your help and apologize for not vocalizing your support.

Thanks to all who made the METCA Show a weekend to remember. The Dunham material made many trips worthwhile, however, prices realized were astounding! My head is still shaking at the price some of the material realized. Ferrest had some great material, the type of material worthy of spirited bids. Thanks to all of you who traveled great distances to attend. Thanks to the local exonumia groups who always support the show each year. And special thanks to the following for their great help: Al and Nina Nystrom, Irene Alexander, John Calhoun, Les Albright, and Jan and Diane Bender. Thank you bourse dealers for your continuous support. And, last but not least, thanks to the membership for the participation in the estate sale.

Please note the roster enclosure form. If you wish to be included on the roster, please fill out the form and return it to METCA, 752 N. 74th, Seattle, WA 98103. This is necessary as a few members have written to me saying I do not have their permission to include their name and address in a membership roster. Some people take great care in severely limiting circulation of addresses and names of members. Those who don't want their name in a roster have that privilege hence the further delay in the long, overdue roster.

SEATTLE METCA SHOW

I've collected coins and tokens for 27 of my 37 years. I guess you might say I'm a dedicated collector, having attended thousands of shows and auctions, including all 4 sessions of the Bowers & Ruddy JHU-Garrett auction. But I can honestly say, having just returned from the 2 day Seattle METCA bourse and auction, that I've never experienced a more enjoyable, exhilarating and rewarding show.

Bary and Jan Bender, with able assistance from Idaho's John Calhoun, and Washington's Al & Nina Nystrom, Irene Alexander & Les Albright, did a splendid job of organizing the bourse and handling the auction and private sale of portions of the late Forrest Dunham's collection (how that great collector will be missed!). And the overall excellence of the show is only magnified by the brief time Bary had to organize it.

Everyone who attended, and there were a lot of us, owes a heartfelt thanks to this dedicated hobbyist, our METCA editor.

But on to the show. I tell you folks - the ratio of active, interested buyers to bourse dealers moving through the aisles of the show was a sight to behold - something coin dealers would be envious of. There are certainly no "Hard Times" in the token hobby, something that can scarcely be claimed of the coin market.

The Alaska members were well represented. I met Ray Mansfield from Douglas, Al Love from Anchorage, John Gilbert from Kodiak, Kaye Dethridge from Sitka, Lorin Cranson from Juneau, and Dick Hanscom from Fairbanks, and Don Anderson from Juneau.

I couldn't get over the sight of Kaye's wife bundled up in a windbreaker in a rather warm bourse room. I'm told that Alaskans are so adapted to the cold up there that "normal" room temperature is too cold for them. Interesting.

The Idaho and Utah boys were well represented by, among others, Jim Mabry-Caldwell, Mike Fritz-Rathdrum, Harry Campbell-Salt Lake City, UT, John Gold-St. Anthony, ID, and John Calhoun-Post Falls, ID.

Of course, Washington and Oregon were more than adequately represented by Al Erickson (thanks, Al, for the new Washington list first available at this show), George Gould, Lew Egnew, Bob Farrell, Gene Kirschten, Kenny Kriete, Jack Harvill, Terry Trantow (lumber token cataloguer), Doug Kenley, Doug Rice, Bill Coleman, Al Nystrom, Cliff Brehan, Ed Saunders, Tom Welch, Michael Shong, Del Cushing, Lyle Horst, Jim Hemphill, Gene Whittington, Florence Bouma, Mike Patton, Glen Rome, Ed Linden, Irene Alexander, Geo. Booth, Les Albright, Len Carney, Wallis Stier, Bob Tribou, Nina Nystrom, Dave Hong, Bob Keck, Mike Barnhart, Mike O'Hara. (Kirschten sure likes those saloons).

And distance didn't dissuade the California crowd - Ron Lerch, Duane Feisel, Larry Elman, Steve Tureen, your author and, all the way from almost the Mexican border, John Hamilton, and Wm. A. Williges.

Bourse sales and trades were brisk and prices strong. No doubt about it. A lot of people went home with great stuff for their collections, this author included. The bourse alone was reward enough.

But Bary, with Big John Calhoun calling the sale with assistance from Les Albright, held a humdinger of a floor auction - both Saturday and a select unpublished auction on Sunday. And, folks, the auction "action" made the Garrett sales look tame by comparison.

Bary, to start with, had a very strong Mail Bid "book" and did a super job of representing the mail bidders, sitting as a bidder in the audience. Too super! Bary wouldn't take his hand down. I doubt the blood has flowed

back into his hand yet. Still, the great majority of items sold to floor bidders who just wouldn't let those invisible mail bidders dissuade them.

THE first floor fight ensued with the Senate Saloon, Little Missouri D.T. Good friends Ron Lerch and John Hamilton forced me up to \$625...but I came to buy that token and it went home in my pocket. I felt good about my purchase when Ron Lerch pushed John Hamilton to the suicidal limit of \$625 on the Tumwater, W.T., Kaifer's Saloon.

Then the saloons took over. Boy, did they take over. Strong, even outrageous prices straight through.

But it was the Alaska tokens that startled everyone. The unlisted Douglas Republic Bar at \$330. The unique and unlisted Fairbanks bimetal Northern Hotel (probably Forrest's last "big acquisition at a startling \$350) at \$450 to Dick Hanscom. There were shouts of \$50 and \$100 raises. The Bank Nome oval at \$400. And (gasp) the probably unique Commerce Saloon Seward at an incredible \$740 to John Gilbert who locked horns with a barely defeated determined Kaye Dethridge. \$2,000 couldn't locate another one, folks

The Washington state tough towns, both Saturday and Sunday (the latter session unpublished and held by Bary to thank those many dedicated collectors who travelled many miles to personally attend the show) shocked everyone. The floor competition was intense. A Kennydale good-for (not even a saloon) brought \$160. On Sunday, a Kapowsin good-for (again, not a saloon) brought \$190. Those Washington boys sure take their collectin seriously.

The auction grossed \$13,000 plus. Somehow I think Forrest was there in spirit and appreciated everyone's interest and enthusiasm.

But friendship, not competition, was the name of the game. Hardened competitors were chummy. It was a relaxed atmosphere with ready sharing of information. You fought like mad on the auction floor and later had dinner with your combatants.

I guess that's what tokens are all about. I guess that's why most of us collectors used to be coin collectors. We've seen the light.

Bary, an encore next year?

FOR IMMEDIATE RELEASE:

A new organization has been formed which will focus mainly on the exonumia of Northeastern Ohio. The organization - to be known as the Northeastern Ohio Token Collectors Association (NEO-TCA) - will hold six meetings a year (odd numbered months) in conjunction with token swap sessions, as have already been held in Canton during the past 18 months.

A newsletter will be issued six times a year and will be sent out just prior to each meeting - partly as a reminder to attend. The newsletter will include features which will be of interest to collectors in general, not only to collectors in Northeastern Ohio. There will be at least one page devoted to exonumia from this area. There will be provision for member's free ads, as well as dealer's paid ads. And there will be news about, and by, members. Other features will be included as the need becomes apparent, and as suggested by the members.

The first meeting was held on November 14, 1981. A "Dedication Issue" was distributed at that meeting. Anyone wishing to receive a copy of this issue or other information about NEO-TCA may do so by sending a 20¢ postage stamp to: SAM RUGGERI, P.O. BOX 145, CANTON, OHIO 44701

INGLE SYSTEM MAVERICKS CLEARING HOUSE

Having been interested in the old Ingle System mavericks for sometime, I recently began the "Ingle System Mavericks" Clearing House. My interest in these mavericks concerns only the Ingle System pieces, and not those having "Insurance Credit System", or "Ingle-Schierloh Co." reverses. I am working on a listing of all such pieces that have been attributed, and hopefully all will be included in a future publication.

Although attributing a previously unattributed piece is always a pleasure, this effort is concentrated on assembling a list of those pieces which are already attributed. For example I know of about 50 pieces which are attributed to Indiana. I'm sure there are collectors in most states that know of pieces attributed to their state but which are unknown to most collectors in the other 49 states. With the cooperation of interested collectors this listing can become a most valuable tool in our hobby.

I have screened the catalogs of the following states and have a sizable listing of attributed pieces. Florida, Michigan, Indiana, Iowa, Oklahoma, Virginia, Montana, Illinois, California, Wisconsin, Texas, S.Carolina, Utah and Idaho as well as the Coal and Lumber catalogs and the TAMS maverick listing, and all have helped a great deal toward this effort. However most states still do not have a catalog, so many, many more attributed pieces should be reported.

If you know of any attributed Ingle System mavericks other than those listed in the above publications, I would certainly appreciate having your information. If you know of a piece, but are not sure if it is in a catalog or not, I urge you to list it to me.

Also, if you will list your unattributed pieces to me, I will check my listing and advise you of any that are already attributed. In the case of those that are not on the attributed list, I will file them in an unattributed file with your name and address also on the card and as any becomes attributed, I will advise the owner.

There will always be many Ingle System tokens that will never be attributed, but with the cooperation of collectors nationwide, making a concentrated effort to combine our knowledge, a catalog of such pieces can be put together that will benifit collectors for years to come.

I urge you to list your Ingle System pieces to me today. A complete description is not necessary. Just give the name as it appears on the token, along with the denomination and the date, either 1909, 1914, or undated. You will be doing the hobby a great service. Please mail all information to; I S M Clearing House, c/o Lloyd E Wagaman, Route #1, Box #195-D, Camby, IN 46113

**** LUMBER COLLECTORS ****

I have picked up some real nice cancelled stock certificates from the Old Thompson Lumber Empire of Texas. There are six different types from Thompson & Tucker Lumber Co., Thompson Bros., and J.N. Thompson Lumber Co. They date from 1904 to the teens. I will trade these certificates for tokens I can use from NEW MEXICO or TEXAS. (Will consider Western states, OKLA, ARK, LA, or MISS).

TRAVIS ROBERTS Box 1160 Bellaire, Texas 77401

- PLEASE READ IF YOU ARE AN ACTIVE TOKEN COLLECTOR -

If you're an active token collector and you're active in trading tokens with fellow collectors, please send me your NAME, ADDRESS, PHONE NO., and COLLECTING INTEREST, for use in preparing an active collectors list. We can't trade unless we know who to trade with.

**THANK YOU
FOR YOUR HELP !**

"SALOON TOKENS OF AMERICA" IS READY FOR THE FINAL MANUSCRIPT TO BE TYPED
AFTER DOZENS & DOZENS OF YOU SENT IN LISTINGS OF HUNDREDS OF TOKENS AND SOME SENT
JUST ONE. ALL OF YOU WILL BE NOTED AS CONTRIBUTORS AND I THANK YOU FOR THE TREMEN-
DOUS RESPONSE TO MY CALL FOR HELP WITH THIS PROJECT. STARTING THE FINAL MANUSCRIPT
WILL BE A PLEASURE AND A LONG JOB. I BELIEVE THAT A SECOND WORK WILL BE STARTED NOT
LONG AFTER THIS FIRST WORK IS COMPLETED DUE TO THE LACK OF RARITY RESPONSE, ETC. ALL
WORKS SUFFER FROM THE SYNDROME "WHY DIDN'T YOU LIST THIS?". RIGHTLY SO! ANY FIRST
EFFORT FERRETS OUT MORE LISTINGS, WHICH IS GOOD FOR THE NEXT CATALOG. THIS ONE WILL
SHOW THOUSANDS OF TOKENS THAT SAY "SALOON" ON THEM, OBV. & REV., LINE ARRANGEMENT,
SIZE, COMPOSITION, SHAPE, A MAVERICK LISTING AND MORE. THANKS AGAIN, *Joe Schaefer*

End of the year cleanout sale.

As usual all trades will come before cash and I collect British Columbia and Yukon tokens. There is something for everyone I hope. In this sale also I'm including a couple of scarce token dies and other bri a brac. Sale will close three weeks after I get my Metca.

These two dies came into my possession some time ago and I think they should be back in the United States so if any one that is interested give a bid but I wont take any rediculous bids.

59.

The two dies from Huntington Park are of a very scarce California token and there are two varieties which was unknown, The token is listed in Kappen's listing.

61.

60.

The other dies are dies of different medals: one from the Shepp Rapid Fire Trophy of Pennsylvania. The other one is from some other medallion.

For customers who pulled into Bob Coney's west side service station the conversation rarely stopped after "fill'er up."

"It was fun meeting the public and making friends — most of them were regulars," said the jovial 66-year-old.

After more than 46 years in the business of pumping gas and making minor automobile repairs, Coney has closed his Villa Avenue station. But memories of 16 cents for a gallon of gas and visits from neighborhood children are very much alive.

"The nicest memory I have is the lasting friends I've made and the children — they remember me later in life and tell me I was always nice to them," he said. "Most of them just wanted air in their bicycle tires, but they always liked to come to my place."

Born and raised on the west side, Coney went into business in 1935 with a loan of \$250 from his father, a painter.

"Jobs were scarce then so I really started on a shoestring," he said. "I knew nothing about it when I started, but it was better than being without a job."

He rented a service station at the corner of Villa Avenue and Myrtle Street and eight years later was offered a nearby station rent-free from the National Refining Company.

"They even paid my water and

Coney

electricity bill. It was a much better deal."

Remembering when gas was dispensed with glass pumps and street cars still rumbled down W. Seventh Street, Coney talked of 12- and 14-hour days he put in during the '30s.

"I had to work that much because of the competition — everybody else did," he said. "There were 12 or 14 stations on West Seventh back in the '30s. Sometimes you would even have them in the alleys. But the best times were the war times because everybody was working. They had more money to spend so they'd buy more gas."

Another boom time was the Fourth of July.

"Service stations sold ice. It was a big thing before everybody had a refrigerator. I had three different ice houses and on the Fourth of July I would sell more ice because everybody was going on a picnic," he said.

But the business was not without hardships. Trudging out in blizzards and sub-zero temperatures to help stranded motorists was among his most chilling experiences. Rising operating costs in recent years also made it difficult to maintain the full-service station.

"And the older cars were really easier to work on because they didn't have all the complicated things to work on under the hood like air conditioning," he said. "You have to be a master mechanic to work on some of them today."

Coney's adjustment to retirement will allow him more time for his interest in studying the history of Sioux City.

"I'm no writer, but I have lots of knowledge just from memory," he said.

Here is a nice item from John Cheramy of Victoria, B.C., the first of our Canadian readers to send in an unusual token rubbing, although this may well be a Seattle piece. John's letter follows:

Dear Joe:

Because of the Canadian Postal strike, we went to Port Angeles, Wash. to post our U.S. mail. While there we popped into the local coin shop and picked up a few medals and tokens. One I thought was unusual was the token described. Don't know why a Mexican sounding cafe should have Chinese food advertised - do you know where this maverick is from? Could be Seattle.

I don't know why the Tamale Cafe would advertise Noodles and Chop Suey myself! The "I.X.L." is a quaint way of rewording (or abbreviating) " I EXCEL" I think. If anyone does identify this, notify John at Box 5214, Station B, Victoria, B.C. V8R 6N4

BRASS 29MM ROUND

OBV. CHAS. PICK & CO. / DEALERS IN / (BAR UTENSILS) / CHICAGO

REV. GOOD FOR / 1 / SMALL BEER / AT / BARING'S / HALL

This token was sent in by Werner Mayer of New York, and was listed as a saloon in my 1893 Polk directory owned by Nicholas Baring at 76 N. Wells. I wonder if a token was issued for a large beer or just how much was in a small beer? This is just one of many beer tokens I've featured, and the subject is so varied and unusual that everyone I get is more interesting than the last!

TURPENTINE

The usual procedure in a turpentine operation was for the owner to lease a tract of pine land. He seldom bought the land. When he planned to move to a new location he would close his operation in the fall. The season for chipping to cause the flow of the raw turpentine started around May 1 and he had five to six months to get ready for production in his new location.

Turpentine camps were built out in the middle of the land under lease, for convenience and to be away from the distractions of a thickly settled community. Another reason for choosing an isolated place was to make sure that the company store got all the business. A store in a location like this was always profitable. Sometimes even more profitable than the much bigger investment turpentine business.

Turpentine production was divided into what were called crops. A crop consisted of 10,500 boxes. It would take from 20 to 100 acres, depending on the number of trees per acre, to furnish enough boxes to make a crop. The average turpentine place would have anywhere from 15 to 30 crops, depending on the size of the operation, with one chipper to each crop. A chipper would go over his crop once each week. The chipping would start the last of April or the first of May depending on when the weather turned warm enough to make the sap flow in the trees.

The purpose of the chipping was to keep the turpentine flowing into the boxes. A tree would tend to heal up the chipped places in about one week's time so it was necessary for the chipper to make the rounds of his crop to hack out a little more of the outer covering of the trees each week. It was like it would be if a man's skin was cut in order to make him bleed. The skin would heal up enough within a short time to stop the bleeding. If the bleeding was to continue, as in the case of the tree, new skin would have to be broken regularly to keep up the bleeding.

A tool called a hack was used to do the chipping. A hack had a rather thin but long blade with a hook on one end and a place for a handle on the other end. The handle would be about 20 inches long to begin with. As the chipping proceeded up the tree the handle would be lengthened until after the trees had been chopped four years a handle several feet long would be needed. The first year with the short handle the boxes were called virgin boxes, the second year with the chipping further up the tree the boxes were called yearling boxes, the third year - buck boxes and the fourth and fifth years - pull boxes - when a different tool with a long handle that was pulled was used to do the chipping.

The original boxes were cut to hold four weeks run of the raw turpentine or dip. Every four weeks after the chipping started in the spring the dipping crew would come around and dip the turpentine from the boxes into buckets. When a bucket was filled it was emptied through a scuttle hole into a barrel. When the barrel was filled the teamsters would come nail a top onto the barrel and load it onto a slide to be

pulled by a team to the wagon. One end of the slide would be placed on the wagon and the barrel rolled onto the wagon to be hauled to the still.

After all the other building had been completed during the fall and winter the men would start erecting the turpentine still in order to have it ready for use by May. A turpentine still was round like an old fashioned wash pot and sat on a round furnace. The furnace was made of steel with grates in the bottom and it was bricked up on the outside. There was a cast iron door into the furnace and just below it an air regulator to control the rate of burning or the heat. A smokestack about 10" in diameter made of sheet steel stood directly across the furnace door. Underneath the furnace was a good sized space for the storage of ashes. The fuel for the furnace was three foot long pine cordwood.

The stiller would closely watch the thermometer for the correct temperature and listen to the boiling of the mixture inside. The spirits of turpentine would vaporize, the vapor rising into the condenser, where it was cooled to condense it into liquid turpentine which would be drained off into a tank connected with the still. From this container it would be drained off through a valve into barrels, ready to go to market.

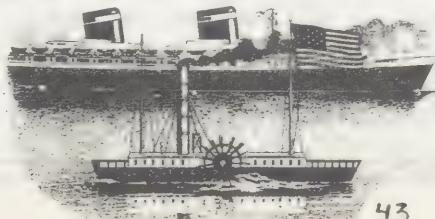

The hot rosin would not vaporize. It would be drained off through a larger valve into a trough. It was too hot to be put directly into the wood barrels. After partially cooling it would be shoveled into barrels, the heads nailed on and would be ready for shipment. What was called dross was strained out of the mix and thrown away as worthless. People living nearby would haul this dross off and use it for raking fires in fireplaces and in wood stoves. It was very flammable and a little bit put in with wood in the fireplace or stove would cause the wood to catch fire and burn more rapidly.

The above article (with much more detail) was written by S.G.Thigpen of Picayune, Mississippi, and is contained in his book, "A Boy in Rural Mississippi". This remarkable gentleman, now 90 years of age, has written several books on life in days past as experienced by him and as described to him many years ago.

The complete article, along with several others by Mr. Thigpen, will appear in my listing of Mississippi tokens to be published in the fall of 1982.
